Resolution of the Government of H. H. the Nizam, Revenue Department—(Forest Department).

No. 118, dated 19th September 1911.

READ—*Administration Report of the Forest Department for the year 7378 Fasli (7th October 1908 to 6th October 1909), submitted by Mr. Sohrabji Jamshedji, Conservator of Forests.*

Remarks by the Director General of Revenue.

1. This report was received in type on 10th April 1911. It appears it was sent to the printers in December last, and there has been a great delay in printing it. This state of things points to the necessity of amending the order

Delay in the submission of issued by the Finance Department giving the monopoly report. of printing to three specific printers. This order is the cause of much inconvenience. No one can object to the rates for printing charges being fixed by a central authority; but having fixed rates, each department should be left free to get its printing done as best as it can, provided the sanctioned rates are not exceeded.

2. The total area of reserved and protected forests has, by several minor changes, resulted in a decrease of 117 and 43 square miles respectively, and now stands at a total of 8,011 square miles.

The two figures may be grouped together because there is practically no difference between reserved and protected forests so far as conservation is concerned. The reserved area has been finally taken up and mostly demarcated, while the protected area is taken up provisionally, subject to modifications in demarcation. But both are equally protected.

3. The open or unclassified forests have nominally decreased by 206 square miles. The measurements in this case are quite approximate.

4. Proposals for forming new reserves in the Aurangabad and Parbhani districts were received in 1319 Fasli, and of these sanctions have been given for 42 villages of the Aurangabad Taluqa.

The following are still pending for further information :—

11	villages of Ambar taluka (Aurangabad District).
30	do. Jalna do do
27	do Hingoli (Parbhani District).

5. With regard to the question of open tracts, the Conservator has dealt with the remarks made last year regarding the provision of land in the Adilabad district for extension of cultivation. It is not necessary to refer further to the subject here. The Conservator has made a long tour in the Adilabad district this year, and it is hoped that the questions between himself and the Taluqdar may have been satisfactorily settled on the spot.

6. The Forest Settlement Branch is undermanned, and must be increased as stated last year. Detailed proposals have not yet been received from the Conservator, who may find some difficulty in engaging a qualified staff. But funds will be provided in the next year's Budget for this purpose.

7. In the matter of preliminary and permanent external demarcation, there has been some improvement, 256 miles of permanent external boundaries being demarcated as against 186 miles in the preceding year. The Conservator has himself criticised the work of his Assistants under this head, and he certainly shows a curious state of things. Demarcation lines of the Mahadeopur reserve have not been cleared and cultivation has been allowed to encroach, so that new demarcation will be necessary miles away from the old lines. When Mr. Partridge's explanation is received as to this state of things, a copy should be forwarded to this office.

65½ miles were demarcated in the Nizamabad Division, but neither maps nor details have been supplied.

In Kareemnager, 76 miles have been left undemarcated, and no reason has been assigned for so little work being done.

In Mahbubnager no progress was made.

In the Gulbarga district no permanent external demarcation was done, although something was done in preliminary work.

It is hoped that the Conservator's remarks on these points will wake up

8. At para 4 of his report, Mr. Sohrabji notices a point which is certainly a very great trouble, *viz.*, his inability to transfer Forest establishment from one place or district to another place or district without the sanction of Government in the Financial Department. The orders issued on this point are more trying. More is thought of the facilities for audit in the Accountant General's department than for the necessities of the executive department.

The Conservator of Forests should have a free hand to move the men of his establishment wherever their services are most required, and surely the Accountant General could devise a means of exercising a sufficient check upon their pay bills. It is surely a mistaken policy to sacrifice the efficiency of a department for the sake of facilitating audit.

To facilitate audit, it might be ruled that changes should be made quarterly and not at odd times.

9. The internal demarcation of forest lands, which means the reserving of lands for cultivation, is proceeding slowly and gives a great deal of trouble.

Internal demarcation.

It has lately been decided to appoint a special officer for this work, and if this measure works well, there can be several special officers working in different parts. The difficulty is to spare officers possessing the necessary qualifications from their other duties.

10. The progress made in the survey of forests is satisfactory, the area surveyed being 895 against 235 square miles and the number of linear miles 1,274 against 978. The cost of survey averaged Rs. 7-2-9 per square mile against Rs. 13-3-1 in 1317 Fasli.

The general progress made in the survey of forests being very slow owing to inadequacy of establishment, the Conservator was directed to submit proposals for strengthening the establishment, (*vide* para 3 of Government Resolution, No. 43, dated 8th March 1910, on the Forest Report for 1317 Fasli.) Accordingly, proposals have been submitted to the Financial office for sanctioning, provisionally for one year an additional establishment of:—

1 officer and 12 classers and surveyors with lascars, etc.

The matter is still under correspondence, and as soon as sanction is received, it will be communicated to the Conservator.

The sum of Rs. 1,548 referred to in para 7, has been sanctioned in Financial office No. 580, dated 19th Farwardi 1320 Fasli, a copy of which has already been forwarded to him direct from the Finance.

11. As regards working plans, the Conservator endeavours to explain away the criticisms on this head made in last year's Resolution. But the fact remains that the Forest department has been in existence for 30 years, and not a single working plan has ever been prepared.

Working plans.

At para 14, it is shown that, in the Gulbarga Division, the protected areas are being worked in accordance with provisional plans.

12. The Lingal settlement for criminal tribes referred to at para 15 has been an expensive experiment for the Forest department. The object was to settle certain criminal tribes, and if this object had been successfully attained the cost of the Forest department would have been repaid in an indirect manner. But the settlement has proved a failure. It is proposed to remove it to some more healthy locality and the sooner this is done, the better it will be for the Forest department. In the meantime further clearance of the forest is stopped.

Lingal Settlement.

13. The sale proceeds of timber and fuel from Government and non-Government forests during the year under report amounted to Rs. 5,20,943 which, when compared with the amount for 1317 Fasli, exhibits a decrease of Rs. 1,08,549. The main cause of this decrease is the restriction of felling in Government forests which have been somewhat over-exploited in the past and an attempt is now being made to give them rest by minimizing fellings.

14. No forest roads were constructed during the year under report either. More attention is necessary to this subject.

Roads.

Some provision has been made in the budget for 1319 Fasli, but a regular scheme should be prepared for forest roads which would be introduced gradually.

15. The progress made in the construction of forest buildings during the year under report was more satisfactory than in the preceding year. 23 buildings were under construction in 1318 Fasli, out of which 10 have been completed and made over to the forest department in the course of 1319 Fasli, and the rest are in progress. The total

Buildings.

expenditure on buildings in 1318 Fasli amounted to Rs. 53,199.

16. Including 4,178 cases against 6,073 persons which were pending at the close of 1317 Fasli, there were in all 9,139 cases involving 12,677 persons to be disposed of during the year under report. The total cases aforesaid were disposed of as follows:—

	Cases.	Persons.
Acquitted	134 against	204
Compounded	4,976 do.	6,626
Pending at the close of the year...	4,029 do.	5,847
Total	9,139 against	12,677

The total amount of fines recovered in cases compounded by the forest department amounted to Rs. 16,611 against Rs. 19,860 in 1317 Fasli. As the arrears are still very heavy, every attempt should be made to clear off as soon as possible.

Besides the above, 3 cases against 4 persons were pending before Criminal courts, and 3 cases against 8 persons were newly filed in 1318 Fasli, making up a total of 6 cases against 12 persons. Out of the cases aforesaid, one alone was disposed of in which the accused was discharged.

17. The area protected from fire during the year under report amounted to 294 against 73 square miles, and the cost amounted to Rs. 1,483 and Rs. 184, respectively. Here again the Conservator complains of remissness on the part of the Assistants concerned in submitting the necessary particulars in this behalf.

In such administrative matters like this a remark in passing, in a progress report, about neglect of duty or remissness on the part of any of the subordinates of the department, cannot serve as a proper corrective. But each case should be specifically reported for exemplary punishment.

18. The total area shewn under sylviculture in the report for 1317 Fasli was 207 acres, and 200 acres of lands in the Jalna cantonment and Bidkingaon of the Patan taluka were taken in hand for Babool plantation during the year under report, thus making a total of 407 acres. The plantation at Bidkingaon proved a failure, apparently because sufficient care was not taken in softening the seed before sowing.

19. The total revenue derived from the department during the year under report was Rs. 8,12,777 which shows a decrease of Rs. 1,44,333 when compared with the revenue of 1317 Fasli, viz., Rs. 9,57,110. This decrease was mainly due to the comparatively limited sale of timber, etc., from Government forests, as explained at para 13 supra.

The expenditure of the department, under all heads, amounted to Rs. 2,19,504, against Rs. 2,07,919. The incidence of the expenditure on the total revenue amounts to 4 annas $3\frac{3}{4}$ pies against 3 annas $5\frac{2}{3}$ pies in the rupee. The increase of Rs. 11,135 in the expenditure of the year is due to the fact that the grades of the upper subordinates of the department were improved under the general scheme sanctioned by Government, and there was a considerable increase under the head of contingencies owing to official postage, etc.

The net income to Government from the forest department, during the year under report was Rs. 5,93,723 against Rs. 7,49,191.

The question of increasing the Forest establishment and of appointing a Deputy Conservator, to assist the Conservator is under consideration.

There is no doubt that the department requires strengthening not only in the higher but in the lower branches and proposals have been submitted for effecting this object.

What is really required first of all is to get an experienced expert officer to come for a few months and to examine and report on the general working of the department. The appointment of young specially educated men is a move in the right direction, but it is also desirable to obtain the opinion of a senior, experienced practical Forest Officer who will be able to point out any defects in the existing system of working.

Order by Government.

His Excellency the Minister has perused this report with interest and concurs in the foregoing remarks.

The thanks of Government may be conveyed to the Conservator and to the officers specially mentioned by him as having rendered good assistance in the disposal of Forest work.

(Sd.) A. J. DUNLOP,
DIRECTOR GENERAL,
Revenue Department.

23-7-1911.

Progress Report

OF

FOREST ADMINISTRATION

IN

His Highness the Nizam's Dominions,
For the year 1318 Fasli, (7th October 1908 to 6th October 1909 A. D.)

CHAPTER I.—CONSTITUTION OF STATE FORESTS.

SECTION I.—*Alteration in areas.* (Forms No. 1, 2, & 3).

The total forest areas in 1317 and 1318 Fasli were as follow :—

Details.	Areas in square miles.		
	1317 Fasli.	1318 Fasli.	Difference.
Reserved	4,878	4,761	—117
Protected	3,293	3,250	—43
Open or Unclassed	4,697	4,491	—206
Total ..	12,868	12,502	—366

Reserves.

The Pakhal and Yellandu areas were formerly shown together. By demarcation and separate survey of these tracts, there has been a decrease of 128.04 square miles. By the correction of Anapreddipalli records, an increase of 11.92 square miles has occurred. 130 square mile of lands was excluded for cultivation from the Amrabad and Yadgir reserves.

Protected Forests.

By the external demarcation of Chinnoor and internal demarcation of the Ootnoor tracts, 46.76 square miles of cultivated and arable lands have been eliminated. By the correct survey of Bhokardan tract, 2.94 miles have been added to the nominal area.

Open tracts.

The remarks made in form No. 3 show how a net decrease of 205.35 square miles has been effected under this head. These areas are still approximate and subject to annual corrections.

During his recent tour, the Conservator sent in detailed reports to Government for reserving the following four open tracts. The Taluqdar and the Subedar have both concurred with these proposals and as far as possible, the conditions of the Forest Act have also been complied with. It is hoped Government sanction to these proposals will soon be accorded.

No.	Taluqa.	District.	No. of villages.	Total area	Area to be reserved.	Conservator's Rubkar No. and date.
				Sq. Miles.	Sq. Miles	
1	Bingoli ..	Parbhani ...	27	129.14	40.32	No. 546, dated 22nd Amerdad 1319 Fasli.
2	Ambad .	Aurangabad .	11	103.00	7.50	No. 547, dated 25th Amerdad 1319 Fasli.
3	Jalna ...	do ..	30	139.96	23.36	No. 548, dated 25th Amerdad 1319 Fasli.
4	Aurangabad ..	do. ..	44	196.21	66.37	No. 7899, dated 10th Meher 1319 Fasli.
		Total .	112	568.31	137.55	

Of the proposed area No. 4, Government had sanctioned in 1313 Fasli, the protection of about 10 square miles of forests situated in 12 villages. Both the areas have now been proposed together as reserve.

With regards to the remarks under para 2 of the Government Resolution No. 43, dated 8th March 1910, on the Forest Report for 1317 Fasli, the Conservator explains the facts as follow :—

Summary of Government remarks.

The first Taluqdar of Adilabad wishes to see large tracts of rich lands, in which he says there is no forest worth preserving, excluded from the forest tracts and he complains that the Forest Department are including such lands, while they have excluded a large tract of hills covered with valuable teak. The views of both the Departments are so diametrically opposed that the Subedar of the Division is the proper person to inspect and report on these areas, but if he is unable to do it, steps will have to be taken to select some other officer for the duty. The Adilabad district has a large area of open forest, and this contains as the Conservator has separately explained in his arguments with the Talukdar, a large hilly tract covered with fine teak, which could not be reserved for want of establishment. Teak being of the reserved species, such forest is practically reserved.

Conservator's reply.

(a) The Taluqdar of Adilabad having written to the Conservator that there was a tract of valuable teak forest worth reserving in the Kinwat Taluqa, the Assistant of Nirmal was requested to inspect and report. Mr. L. H. Somvey, (passed Dehra Dun student) inspected this hill tract, between Adilabad and Mahore, a strip of about 35 miles in length as the crow flies, with an average breadth of about 2 miles, and reported in August 1910, that the area is all hilly, with cultivation up to the slopes of the hills and in some places the steep slopes of hills have also been given to ryots for cultivation. Of the two plateaux of these hills, greater portion of one is intercepted with cultivation. The total area is about 100 square miles. One portion of it was formerly included in the Adilabad protected tract and another in the Nirmal Reserve. The third portion towards Mahore was not protected. In consultation with the same Taluqdar and Forest Officers, the present Conservator excluded in 1315 Fasli the above mentioned two portions consisting of poor forest. More than 80 per cent of the tract is covered with Andook trees (*Boswellia Serrata*), which being soft are not used by ryots. Crooked and stunted teak occupies only one or two per cent of the total area. The remaining area of 18 per cent consists of unreserved species and a little Nellamaddi. Owing to inferior shallow stony soil and inaccessible slopes, the economic value of the forest is very much lowered. There is not much demand for the produce, as the ryots' requirements are limited only to free fuel and grazing.

(b) The Assistant, later on, sent his detailed report regarding the above area and the Conservator intends inspecting it in 1320 Fasli. The Conservator had informed Government in detail, under paras 2 (1) and 4 of his report for 1315 Fasli, why and to what extent poor forest areas had been excluded by him in consultation with the Revenue and Forest Officers. The Conservator could not remember when and where he has admitted that a large hilly tract covered with fine teak has not been reserved or protected. What he meant was that good forests on the plains, where the demand is brisk, should first be reserved, while the inferior ones in the hilly tracts might be taken up after the sanction of extra establishment. In the meantime, the open forests being very hilly and inaccessible to carts, &c., are naturally protected from destruction.

SECTION 2.—Forest Settlements

2. As already explained, the small temporary survey establishment has been fully occupied with the surveys of forests, settlement of boundary disputes, correction of village maps and the preparation of forest maps. Hence no Forest Settlement has as yet been commenced. Form No. 25 will however show, what areas have been examined by forest officials and set apart for cultivation.

SECTION 3.—DEMARCATON. FORM NO. 5.

External Preliminary Demarcation.

3. The Assistants of Warangal, Karimnagar, Nirmal and Adilabad Divisions do not report of such work being done in their Divisions.

Karimnagar Division.—Mr. Ahmed Mohiuddin however states that although the Mahadeopur reserve was demarcated some years ago, the lines have not been cleared and the cultivation in the reserve has extended so far as to necessitate new demarcation, miles away from the old lines. This state of things is deplorable, which, Mr. Partridge, who was in charge of this division for some years, will have to explain. The present Assistant has been requested to revise this demarcation in 1320 Fasli and report on the same.

Lakshatipett Division.—Mr. Ghouse Mohiuddin has demarcated in 1318 Fasli, 25 miles of the Chinnoor Block No. 2, but owing to the close of the touring season the work was left incomplete.

Nizamabad Division.—Mr. Farrell has done the preliminary demarcation of 65½ miles of the Medak tract, but has submitted neither details nor maps.

Mahbubnagar Division.—Mr. Krishnaji Ganesh went over 35.62 miles

of boundaries of the Koilkonda protected forest, comprising 15 villages. As the preliminary demarcation was completed by his predecessor, he only took "Razinamas" from the village authorities, owing to the absence of a Revenue Officer. If the preliminary work had been done some years ago and the trees too were blazed, then the Assistant should have, long ago, sent in his report with map of the demarcated areas. After consulting the First Taluqdar, we have to cut the lines and survey this tract. This work should now be hurried on.

Gulbarga Division.—Mr. Edwards demarcated the Peddamal protected tract into three blocks and the approval of the Officiating Conservator was obtained in Tir 1318 Fasli. The line, about 48 miles, had to be cut in 1319 Fasli, but there are many Jagir villages on the boundaries and perhaps some boundary disputes also. The question of giving general powers to the Forest Settlement Officer, to survey and correct village maps wherever found wrong, was pending since some months and has recently been settled. For this reason the demarcation and the survey of the Yadgir, Chincholi and Peddamal forests are incomplete.

Permanent External Demarcation.

4. The total length of boundaries of all the tracts under protection was roughly estimated in 1317 Fasli at 3,990 miles, but by proper measurements of some of these areas, the same has been shown in 1318 Fasli at 4024.42 miles. The increase of 34.42 miles has been distributed among the Warangal, Lakshatipett and Nizamabad Divisions. In column 9 of the statement for 1317 Fasli, the total length of natural boundaries, not requiring artificial demarcation, was shown at 447.83 miles, but the same has now been shown at 444.55 miles. Of the 3579.87 miles of lines requiring artificial demarcation, 2,204.65 miles were permanently demarcated till the end of 1317 Fasli, and 256.59 miles were demarcated during the year under report. Thus the balance at the close of the year 1318 Fasli was 1,118.63 miles. The following figures show the work turned out by each Division and the balance of work to be done during the ensuing years.

Divisions.	Divisional Officers during the working season.	Length in miles.	
		Demarcated in 1318 F.	Balance at the close of the year.
Warangal	Mr. E. A. Partridge	25.75	79.81
Karimnagar	Mr. Ahmed Mohiuddin	4.00	76.00
Lakshatipett	Mr. Ghouse Mohiuddin	128.09	400.51
Nirmal	Messrs. Abdur Rahim Shareef and Somvey	10.00	157.63
Nizamabad	Mr. R. C. Farrell	33.00	91.00
Mahbubnagar	Mr. Krishnaji Ganesh	0.00	156.46
Aurangabad	Mr. Gopal Kishen Rao	55.85	82.87
Gulbarga	Mr. F. C. Edwards	0.00	74.55
Total		256.69	1,118.83

Warangal.—Owing to an unsettled dispute with Garla Jagir and interference of His Highness' Shikargah people, 9.25 miles of line have not been demarcated. The remaining 70.56 miles should have however been demarcated long ago.

Karimnagar.—No reason is assigned for doing very little work and leaving 76 miles of lines undemarcated. The present Assistant has been instructed to expedite this work.

Lakshatipett.—The Assistant has done well in demarcating 128 miles and it is hoped that the balance of 401 miles will soon be demarcated.

Nirmal.—Of the 157.63 miles of undemarcated lines, only 10 miles have been cut during the year under report, which is a very slow work. Mr. Somvey ought to wake up his rangers.

Nizamabad.—It is hoped the demarcation of 91 miles will soon be completed.

Mahbubnagar.—With 156.46 miles of work in balance, Mr. Krishnaji Ganesh has not shown any progress. It is no use grumbling against the Revenue Department for want of co-operation. Where there is will there is a way.

Aurangabad.—In Marathwada, demarcation is very easy and hence the balance of 82·87 miles should soon be completed.

Gulbarga.—Since years, no demarcation has been done in this Division and Mr. F. C. Edwards, although repeatedly warned, is responsible for not having done any work in 1318 Fasli.

General remarks.—As compared with 186·01 miles of lines demarcated at a cost of Rs. 591-15-8 in 1317 Fasli, the work turned out in 1318 Fasli of 256·69 miles, at a cost of Rs. 726-13-6, is an improvement. The average cost of Rs. 2-0-9 per mile for 1318 Fasli, also compares favourably with Rs. 3-2-11 of 1317 Fasli. Demarcation should however be pushed on at the cost of other minor operations.

Without demarcation and forest settlement, we could not possibly prepare forest maps, for starting working plans. At present all the time of the local establishments is spent in measuring timber of thousands of applicants, spread over the whole of the country, and inspecting lands demanded for cultivation. The British forests are worked on the coupe system and as compared with ours they have very strong establishment. In the British forests, the Conservators have full power to transfer or depute forest establishment from one place to another, as the demand for timber or work changes, whereas here if a Ranger or Forester happens to be transferred with another on unequal pay, or a forest guard is required somewhere else, we are told to obtain the sanction of Government in the Financial Department. The Conservator has been very much handicapped since the cancelling of these powers in 1316 Fasli. This simple matter is still pending with Government. Much of the Conservator's time is spent in sending statements and reports for Government sanction, of petty matters of internal administration. He can therefore scarcely afford time for important administrative matters.

Internal Demarcation. (Form No. 5, columns 13—15.)

5. Owing to a dispute between the Forest and the Revenue Department of the Adilabad district, regarding the external demarcation of the Ootnoor Block, Government instructed both the Departments to depute one Revenue and another Forest Officer to demarcate lands of each village and set aside areas for cultivation. This work should however have followed the external demarcation. Lands of 27 villages were demarcated in 1318 Fasli and the total areas of 4 villages excluded from the protected tract. 69·41 miles of internal lines were preliminarily demarcated, but they are not cut the same year. A portion of these lines will serve the purpose of external boundaries. 9,232 acres of cultivated and 17,604 acres of arable forest lands have been set aside for cultivation. The demarcation and settlement of the other villages was not done in 1319 Fasli, as the Revenue Inspector was not available. The Taluqdar should appoint some other officer.

(a) The rules for setting aside forest lands for future cultivation, proposed in 1312 Fasli, have now been sanctioned through Circular No. 18 of Sharewar 1318 Fasli. Two officers representing the Forest and the Revenue Department have to jointly select and demarcate such areas in each village. The Revenue Officers always find excuse for other important work and are generally absent. This delays our settlement work. This important matter was lately discussed in a Committee in the Revenue Secretary's office. The opinion of this Committee was that instead of two officers, representing the Forest and the Revenue Departments, as laid down in the sanctioned rules, only one officer should be deputed with the consent of both the departments and he should set aside lands for future cultivation in accordance with detailed instructions, to be sanctioned by Government. It is to be seen how this scheme will work. It will cost a lot of money to Government. In this connection, the following remarks of the Travancore State, passed on the Forest Report for 1084 M. E., (ending with 15th August 1909) will be interesting and it is hoped that before giving any trial to newly proposed schemes, the experience of the Travancore State, will be kept in view.

"The work of settlement continued to be done by the Division Peishkars; and the Reserve Settlement Officer represented Government at the enquiries into claims. The Conservator found that the arrangement, under which a special Officer attended to the demarcation of proposed reserves and settlement enquiries throughout the State, was unsatisfactory, as it not only divested the local Divisional Officers of their due share of responsibility in the matter of demarcation and settlement, but also kept the latter ignorant of what was going on in their division. On the recommendation of the Conservator, His Highness' Government, sanctioned the abolition of the appointment of Reserve Settlement Officer from the first day of 1085 and the transfer of the work to the several Divisional Officers. It is hoped that this

will help the speedy settlement of reserves and also contribute to the work being done systematically and thoroughly. The Conservator says that the rules regulating the procedure to be followed at Forest Settlement were more rigidly observed during the year than had been previously the case. His Highness' Government concur with Mr. Ram Rao in thinking that, even at the risk of delay, accurate work should be aimed at."

With the concurrence of the Subedar of Warangal, a Forest Ranger is starting the settlement work in the Yellandu reserve and it is hoped the work will be extended in other reserves.

Clearing of old lines.

6. Against 878.42 miles of old lines cleared at a total cost of Rs. 5-3-0 in 1317 Fasli, 1,055.78 miles of lines were cleared of forest growth in 1318 Fasli, and the cost has been Rs. 89-2-6. Much of this work is said to have been done by the local ryots, in lieu of the forest rights granted by Government. It is hoped the Divisional Officers will inspect these lines and see that the work is actually done every year, as reported by their subordinates.

SECTION 4.—*Forest Surveys.* (Forms No. 6. 6- a and 6- b.)

7. Through Financial Secretary's Rubkar No. 1442, dated 28th Sharewar 1318 Fasli, Government sanctioned two years' extension, which ends with 1320 Fasli. The village and taluqa maps prepared by the Settlement Department, are generally found incorrect as regards forest lands, and many boundary disputes have been left unsettled. The forest survey establishment is obliged to correct village maps and settle the disputes and hence the work is not progressive enough. As desired by Government, (*vudu* Resolution No. 43, dated 8th March 1910) proposals were submitted for an immediate increase of 5 surveyors, to strengthen the Department, and about 30 trained hands had been collected for future demand. These proposals were however not sanctioned in the budget for 1320 Fasli, as the Revenue Secretary wished to put off the scheme till 1321 Fasli. The scheme has however been resubmitted and it is hoped that Rs. 1,548 will soon be sanctioned from the reserve fund. If Government are anxious to expedite the forest work, a more liberal policy will have to be adopted towards this Department, and the head of the Department to be invested with certain powers. Demarcation and survey is not as smooth sailing as considered by some, and the Forest Department has a stiff uphill work in every branch of its administration.

8. From the following statement it will be observed that the area surveyed during the year under report was 895.59 square miles, against 235.10 of 1317 Fasli, and 449.72 square miles, the average of the past 5 years. The average cost of Rs. 13-3-1 of the year 1317 Fasli, and Rs. 11-7-7 of the past five years, has also been reduced to Rs. 7-2-6 in 1318 Fasli. The survey and demarcation work in linear miles has also exceeded that of the past years. 1,274.43 linear miles were either surveyed or demarcated in 1318 Fasli against an average of 521.52 miles of the past five years:—

I T E M S.	Quantity of work turned out in 5 years, ending 1317 Fasli.	Quantity of work turned out in 1318 Fasli.	Total.
Theodolite survey of reserves in square miles	1,865.37	855.16	2,720.53
Survey of disputed areas in square miles.	156.53	4.05	160.58
Boundary survey of villages for internal details in square miles	226.69	36.38	263.07
Total survey in square miles .	2,248.59	895.59	3,144.18
Average work per year ...	449.72	895.59	524.03
Average cost per square mile ...	Rs. 13 3 1	Rs. 7 2 9	Rs. 11 7 7

[Statement.

ITEMS.	Quantity of work turned out in 5 years, ending 1317 Fasli	Quantity of work turned out in 1318 Fasli.	Total.
Survey of boundary lines in linear miles ...	2,031.29	1,023.64	3,054.93
Cutting large and small lines in linear miles ...	497.56	250.79	748.35
Preliminary demarcation, inspection and clearing of old lines in linear miles ...	78.78	...	78.78
Total linear miles ...	2,607.63	1,274.43	3,882.06
Average per year ...	521.52	1,274.43	647.01

9. The subjoined statement shows the details of the expenditure. Rs. 6,417 were spent, leaving a balance of Rs. 1,333, as budget savings. Within the past six years, the total budget savings amount to Rs. 7,670:—

No.	ITEMS.	Budget grant.	Amount spent.	Savings.
		Rs. a. p.	Rs. a. p.	Rs. a. p.
1	Pay of Officers ...	2,400 0 0	2,400 0 0	...
2	Pay of Establishment ...	420 0 0	420 0 0	...
3	Pay of Menials ...	672 0 0	630 15 4	41 0 8
4	Pay of Surveyors ...	2,400 0 0	1,916 12 11	483 3 1
	Total pay ..	5,892 0 0	5,367 12 3	524 3 9
5	Travelling allowances and cart hire, etc. ...	1,048 0 0	878 14 1	169 1 11
6	Fixed Contingencies ...	60 0 0	60 0 0	...
7	Miscellaneous, house rent etc. ...	250 0 0	16 2 0	233 14 0
8	Service postage ...	500 0 0	94 8 0	405 8 0
	Total ..	1,858 0 0	1,049 8 1	808 7 11
	Total for 1318 Fasli ..	7,750 0 0	6,417 4 4	1,332 11 8
	Last 5 years total from 1313 to 1317 Fasli ...	36,008 8 0	29,671 6 1	6,337 1 11
	Grand total for 6 years ...	43,758 8 0	36,089 10 5	7,669 13 7

10. Rs. 2-1-4, regarding the pay of a peon and railway fare of a surveyor, were recredited to the treasury. For the survey of 17 Ijara and Agrahar villages, Rs. 430-4-3 were recovered from Ijaredars, &c., of which Rs. 310-4-1 were credited during 1318 Fasli in Government treasuries, and a balance of Rs. 120-0-2 remained with the Forest Survey officer. He has been asked to send a complete list.

11. Ten surveyors were employed during the year under report, of which one was engaged throughout the year in preparing maps and nine went out for field work. Of the total 3,650 days, 822 days were spent in survey, 253 in demarcation and 244 in travelling. Mapping at head-quarters took 1,085 days and miscellaneous work 65 days. 386 days' work was lost owing to non-co-operation of villagers &c., and 795 days were granted as holidays and leaves. Thus 2,469 days (or 67.65 per cent) were spent in actual work and 1,181 or 32.35 per cent without work. The percentages of working and non-working days in 1317 Fasli were 63.80 and 36.20 respectively. As some of the survey maps have been found incorrect, the Forest Survey officer has been instructed to devote more of his time in inspecting the work of his subordinates.

12. To the six boundary dispute cases, with an area of 16,401 acres, pending enquiry at the end of 1317 Fasli, 13 fresh cases with an area of 2,183 acres, were added during 1318 Fasli. Thus 19 cases, with an area of 18,584 acres were on the file. Of these, 14 cases have been decided, the area of which was 2,794 acres. 647 acres were decided in favour of Jagirs &c., and 2,147 acres towards Government villages. Five cases, with an area of 15,790 acres, were pending enquiry at the close of 1318 Fasli, of which 3 cases and 14,794 acres relate to 1314 and 1316 Fasli; the remaining two cases with 996 acres are of 1318 Fasli. It is indeed very disappointing to the Forest Department, that notwithstanding strict

orders from Government, no Revenue officer of the Warangal District represented Government, and hence three cases are being dragged on for years.

CHAPTER II.—MANAGEMENT OF STATE FORESTS.

SECTION 1.—REGULATION OF MANAGEMENT.

Working plans.

13. For reasons already explained, no permanent working plans have been taken in hand, but the Conservator's Circular No. 19 of 1314 Fasli, stands good. Sanction is generally obtained for annual plans of operations and as far as timber is available in Ijara villages and Government occupied lands, green timber in Government forests is not felled.

In para 4 of the Government Resolution No. 43, dated 8th March 1910, the following remarks were made, on the report for 1317 Fasli:—

“No working plans have as yet been compiled and the Conservator points out (para 19) that owing to the forest being unsettled and unsurveyed . . . some years must elapse before a systematic working of the forests can be introduced. These remarks are written after more than thirty years of forest administration and they reveal rather a lamentable state of things &c.”

In this connection, it must be explained that the first four forest tracts of about 3,830 square miles in two districts, were proclaimed reserved in 1304 Fasli and rules for the management of them were promulgated the same year. Within eight more years, eleven other tracts, of the area of about 1,354 square miles were added to the list. On the recommendation of the present Conservator, who happened to be officiating then, 14 large tracts, with an approximate area of 4,408 square miles, were declared in 1313 Fasli as protected. Two new tracts, with an area of about 172 square miles, were added to this list in 1314 Fasli. In 1316 Fasli, 19 open tracts, scattered over five Marathwada districts, with a nominal area of 963 square miles, were subjected to partial control of the Forest Department, for securing fuel supply to factories and mines. It is a misnomer to call some of these tracts reserves as they were and still are protected forests, being partially demarcated. Besides insufficient establishment, the Forest officer has in each case to await the presence of a Revenue officer for demarcation. The latter seldom finds time for this work. The village and taluqa maps prepared by the Settlement Department are, as far as forest lands are concerned, very incorrect and lots of boundary disputes are still unsettled, and several boundaries undemarcated. Thus the protection of four forest tracts commenced only 14 years prior to 1317 Fasli=1908 A. D., and not over thirty years as mentioned in the Resolution. The present Conservator is responsible only for a period of 3 years out of 14 mentioned above. Against this short period of 14 years the British Forest Act was first introduced in 1865, 44 years prior to 1317 Fasli. The permanent working plans are not introduced at once in the British forests, but till important data are collected, they are worked on provisional plans. We are also trying to do the same. With the small establishment sanctioned for these tracts, the department has been fully engaged in measuring up timber of thousands of applicants spread over the whole country, inspecting lands wanted for cultivation and spare time is generally employed in demarcation &c. Although the present Conservator has fairly criticised the work of the Department, and he does not hold a brief for the same, he may be blamed for being unjust if he did not represent the above facts to Government, for correcting the wrong impression generally created by the aforesaid remarks in the Government Resolution. Owing to these observations, caustic remarks in the following terms, have been made in the Indian Forester of October 1910.

“It is somewhat surprising to discover that these forests have been under the forest administration for more than thirty years, but that not a single acre of the area of 8,171 square miles is yet managed under a regular working plan.”

It is hoped that a Resolution on this Report, will remove the above impression, wrongly created by the remarks made on the report for 1317 Fasli.

14. *Gulbarga Division.*—The two protected areas of the Gulbarga Division, Rasnam and Raichur, are being worked out in accordance with the provisional plans.

Of the total approximate area of 7,880 acres of the Rasnam tract, eight blocks comprising 3,770 acres, had been worked till 1317 Fasli, on the coppice with standard method, yielding a total revenue of Rs. 12,130. One block is being auctioned annually. In 1318 Fasli, one more block had been taken in hand, realizing Rs. 2,020. In all, 39,447 standard trees of the reserved species, have been left standing in the total area of 4,284 acres, worked till 1318 Fasli.

Block No. 2, of the Hutti Gold Mines fuel reserve, was open in 1318 Fasli. The company have purchased since 1316 Fasli, only the following quantity of fuel from the Government forests, although they were allowed to extract 10,000 cart-loads every year:—

Fasli year.					No. of cart-loads of fuel.	Amount paid.
						Rs. a. p.
1316	6,612	4,813 8 0
1317	546	6,631 8 0
1318	725	6,000 0 0
Total					7,883	17,445 0 0

A balance of Rs. 5,620-8-0 of the above amount had been carried forward in 1319 Fasli, to the credit of the company. The cost of the special establishment for 1318 Fasli was Rs. 923-11-4. The Assistant reported that private owners of forests were under selling fuel to the company and that accounted for the Manager not purchasing his full supply of fuel from us. On the recommendation of the Conservator, Government have been pleased to reduce since 1319 Fasli, the fuel rate from Rs. 1-8-0 per cart load or half a ton, to Re. 1-0-0. In 1319 Fasli, 4,996 cart loads of fuel were extracted by the company and Rs. 4,996 adjusted to their account. This left a balance in their favour of Rs. 624-8-0, for 1320 Fasli.

15. *Mahbubnagar Division*.—The plan of operations for the Amerabad Reserve sanctioned in 1315 Fasli, was deferred in favour of clearing the Lingal lands for cultivation. A rough working plan for the Koilkonda forest was sanctioned by the Conservator, through No. 3609, dated 24th Farwardi 1318 Fasli, by which restricted fellings were allowed only in 9 villages, out of 99, comprising the protected tract.

As already reported at length, through the Conservator's letter No. 472, dated 11th August 1910, addressed to the Revenue Secretary, the experimental settlement for criminal tribes at Lingal has proved a complete failure. The following figures will show the difference between the glowing future prospects shown in 1313 Fasli by the Taluqdar of Mahbubnagar and the actual figures of 1319 Fasli collected by the Conservator on the spot:—

I t e m s .					Prospects shown in 1313 Fasli.	Found in 1319 F.
Male population	23,035	142
Annual land revenue	Rs. 46,070	Rs. 325
Area under cultivation in square miles	30	4

The Forest Department had hastily to sell valuable timber at much reduced rates, for getting the criminal classes to cultivate lands and the loss by this transaction alone is calculated at about Rs. 25,000. There is an unrecovered "Tukavi" balance of Rs. 2,723, which may or may not be realized. To this have to be added the salaries of the Police and the Revenue officials and Jawans posted there, as also the value of inam lands granted to Balootadars since the past 6 years. Magnificent teak forest has been destroyed. The timber was sold at the following rates:—

I t e m s .					Amount in Rupees.	Approximate loss to Government.
					Rs.	Rs.
Timber at full rates	1,002	...
"Irsali" and "Gairee" timber at $\frac{3}{4}$ rates	10,235	3,412
"Irsali" timber at half rates and "Gairee" at $\frac{1}{4}$ rates	21,551	21,551
Total					32,788	24,963

The annual amounts received by the sale of timber in this area were:—

1316 Fasli	Rs. 12,282
1317 "	" 16,532
1318 "	" 3,761
1319 "	" 160
			32,735
Advance to be adjusted	53
Total Es.			32,788

Almost all the valuable timber of the cubic size, has been exploited in about 30 square miles and only pole stage timber remains in this area. The fellings in this area have been stopped in 1319 Fasli, and the Conservator has pointed out another area for future fellings, with certain restrictions. Government have also been addressed to select forest lands between Amrabad and Mannanoor, for the settlement of Criminal Tribes, if the colony of Lingal has to be transferred to a healthier locality.

The Conservator has also recommended, with facts and figures, that the collection of the "Erkalas" in one place, and granting them 15 days' leave of absence, have given them better opportunities of committing thefts in wealthy houses. They do not easily take to settled life as they are nominal cultivators but great burglars. The "Banjaras" have, to a certain extent, improved by their new occupation.

16. Form No. 14 shows the details as regards timber and fuel sold from different areas in each division. The following is a comparative abstract of the same :—

AREAS.	AMOUNT IN RUPEES.		
	1318 Fasli.	1317 Fasli.	Difference in 1318 Fasli.
Green timber from Government forests ...	2,12,985	2,86,703	-- 73,718
Dead and fallen timber from do. ...	36,790	33,097	-- 1,307
Timber and fuel from Ijara and Banjar lands	93,259	91,228	+ 2,031
" " Old Patta lands .	54,564	56,398	-- 1,834
" " New Patta lands ...	54,406	32,747	+ 21,659
Timber from areas under tanks and Criminal Settlement ...	11,670	62,220	-- 50,550
Timber from boundary lines, &c. .	243	263	-- 20
Firewood from Government forests.	57,026	61,836	-- 4,810
Total ...	5,20,943	6,29,492	- 1,08,549
Free grants in timber for agricultural implements and houses &c, only through the Forest Department ...	38,911	49,320	- 10,409
Total ...	5,59,854	6,78,812	- 1,18,958

As the Government forests have, some years ago, been over exploited, they must be given some rest. This accounts for a decrease of Rs. 75,025 as compared with the last year. By the sale of timber from the Ijara villages and Patta Lands, there has been a net increase of Rs. 21,856. As the fellings under large tanks such as Lakhanawaram and Ramappa have been completed till 1317 Fasli and as restricted fellings were allowed on the Lingal area, there has been a large decrease of Rs. 50,550 under this head. It is not proved whether the decrease of Rs. 10,409 under free grants is owing to strict supervision or carelessness of the local forest officials.

SECTION 2.—COMMUNICATIONS AND BUILDINGS.

(a).—Roads.

17. No roads were repaired or constructed during 1318 Fasli. Government sanctioned the estimate of Rs. 10,500 for the construction of about 70 miles of cart tracts in the Amrabad reserve, of which Rs. 5,500 were provided in the budget of 1319 Fasli. As this report relates to 1318 Fasli, details of work done in 1319 Fasli need not be given here. None of the other Assistants has submitted estimates for constructing roads in the reserves. The Public Works Department is constructing a "Pakka" road between Nirmal and Itchora in the Adilabad District, which is a continuation of the old Nagpore road. Another road from Raichore to the Hutti Mines is being metalled. Both these roads will favourably affect our forests. The Assistant of Lakshatipett shows future necessity of some roads on the hills of Jangaon and Lakshatipett forests, but owing to the backward state of the districts and practical closure of the forests to fellings, he thinks it premature to attempt at road-making at present. He should however have sent in a sketch map and estimate with his report.

(b).—Buildings—Form No. 8.

18. As remarked in para. 26 of the last report, the balance of Rs. 108, advanced in 1316 Fasli to the Tahsildar of Jangaon, for making some tiles and chunam for the Forester's office, remained unadjusted till the end of 1318 Fasli. The Taluqdar of Adilabad replied that the Tahsildar could not be held responsible, for the delay in getting the materials made. The Assistant Conservator has auctioned the existing bricks and chunam at Rs. 21, and the balance will have to be written off.

19. As per form No. 8, twenty-five estimates for the construction of substantial buildings were sanctioned in 1317 Fasli. Rs. 11,896-1-10 were spent by the Public Works Department in 1317 Fasli and Rs. 53,198-8-6 in 1318 Fasli. Budget allotment of Rs. 63,836 had also been obtained for 1319 Fasli. Up to the writing of this report, the following buildings have been completed and handed over to the Forest Department:—

1	Karimnagar	...	Assistant Conservator's office	Dai 1319 F.
2	Nizamabad	..	Do.	do.	...	Meher 1319 F.
3	Khamammett	..	Sub-Assistant Conservator's office	Ardibehesht 1319 F.
4	Nander	...	Do.	do.	...	Meher 1319 F.
5	Mulug	..	Ranger's office and quarters	Istandar 1319 F.
6	Sursilla	...	Do.	do.	...	End of 1319 F.
7	Medak	...	Do.	do.	...	Khurdad 1319 F.
8	Kamareddi	..	Do.	do.	...	In 1319 F.
9	Kannad	...	Do.	do.	...	Khurdad 1319 F.
10	Aurangabad	..	Forester's office	Dai 1319 F.

The Public Works Budget for 1320 Fasli provides Rs. 35,331 for completing eleven buildings. Besides this allotment, Rs. 523 are provided for the maintenance of newly constructed forest buildings. The Forest Department is not responsible for the slow progress made in this line.

Repairs to buildings. Form No. 8-a.

20. Of the Rs. 245 sanctioned for the repairs of 4 forest buildings, Rs. 200-8-0 were spent in 1318 Fasli and Rs. 44-8-0 were left in hand. Including Rs. 35 spent in 1317 Fasli, accounts of Rs. 209 have been received in this office. The Ranger of Sirpur only has to send in his accounts.

SECTION 3.—PROTECTION OF FORESTS.

(a) *General Protection.*—*Forest Offences.*

Forms No. 9 and 9-a.

21. To the 4,178 cases against 6,073 persons, pending enquiry at the close of 1317 Fasli, 4,961 fresh cases implicating 6,604 persons were added in 1318 Fasli. Of the offences detected in 1318 Fasli, 27 cases related to injury by fire, 4,672 to unauthorised fellings, 72 to grazing without forest passes and 190 to other minor offences. Of the total 9,139 cases against 12,677 persons, 204 persons were acquitted in 134 cases and 4,976 cases were compounded, in which 6,626 persons were fined. At the end of 1318 Fasli, 4,029 cases against 5,847 persons, remained undecided. As compared with the balance of 1317 Fasli, there is a slight improvement. Against Rs. 19,860 recovered as fines in 1317 Fasli, Rs. 16,611 were recovered in 1318 Fasli, for the cases compounded by the Forest Department.

22. Three cases against 4 persons were pending enquiry in the Criminal Courts at the close of 1317 Fasli, to which 3 fresh cases against 8 persons were added in 1318 Fasli. Of the six cases, only one case pending since 1312 Fasli, has been enquired into, resulting in the acquittal of one person. Five cases against 11 persons remained pending at the end of 1318 Fasli.

(b).—*Protection from fire.* Form No. 10.

23. Against 78 square miles protected at a total expenditure of Rs. 183-13-4 in 1317 Fasli, fire protection was adopted in about 294.59 square miles of forests, at a total cost of Rs. 1,484-8-4. The Assistants have however not shown the actually burnt areas and the causes of fires, as requested in 1317 Fasli. It is hoped more interest will be taken by them and classified statements showing causes of fires will be sent in future.

(c).—*Protection from cattle.* Forms 11 and 12.

24. As explained last year, we have no proper working plans and hence only those areas are closed to grazing that have been selected for systematic fire protection. 106.50 square miles of forests were closed to all animals throughout the year and 78.25 square miles for a part of the year. 1,082.23 square miles of forests were closed for the the whole year to browsers only.

25. Form No. 12 shows the comparative figures, for both the years, of the number of cattle having grazed in our forests. Against 7,13,193 cattle grazed in 1317 Fasli at full rates, 6,09,698 cattle have been shown for 1318 Fasli. The decrease is 1,03,495 in number. Against Rs. 1,19,425 recovered in 1317 Fasli as grazing fees by Government agency and contractors, Rs. 1,06,238 had been realized in 1318 Fasli. The decrease of Rs. 13,187 will be explained under the head of financial results.

26. As regards the recommendations of the recent Committee of Subedars, that in future no grazing tax should be realized per head of cattle, but the ryots should be made to pay certain percentage on the land revenue paid by them, the Conservator has already submitted his written protest against this scheme. It is hoped that Government will carefully consider all the points mentioned therein, before sanctioning such new rules. These proposals, if carried out, will not only be against the grazing rights granted to ryots by the Forest Act of 1309 Fasli, but they will also destroy our already heavily grazed forests. Regeneration will be greatly impeded.

4. SYLVICULTURE.

(a) NATURAL REPRODUCTION.

26. (a).—There is nothing to add this year to the remarks made in the Report for 1317 Fasli.

(b) ARTIFICIAL REGENERATION. PLANTATION. FORM NO 13.

26. (b). For Babool plantation, 200 acres of lands in the Jalna Cantonment and Bidkingaon of the Paitan Taluqa were taken in hand. The seeds were sown broad-cast. The Assistant however reports that the seeds obtained for the Bidkingaon area were not collected from the droppings of goats and hence the plantation did not succeed. The Subordinate officer who did this work ought to have been punished and the Assistant should have himself seen the seeds before planting them. Rs. 104-14-0 were paid in 1318 Fasli, towards the expenditure of 1317 Fasli.

Wages for sowings at Jalna	36	8	0
Purchase of seeds and bags	1	6	0
Pay of one Watcher	67	0	0
Total				104	14	0

Although the estimate for 1318 Fasli was sanctioned in time, the Assistant reports that the payments for 1318 Fasli were not made as the amount was received very late from the treasury.

20 Acres of former plantations have been excluded as unsuccessful. Thus against 207 acres under plantation at the end of 1317 Fasli, 388 acres have been shown for 1318 Fasli.

More plantation was taken in hand in 1319 Fasli, and the Conservator himself looked after it. Details will be given in future report.

—OF THE DOMINIONS. After teak, this is the second best timber. Sandra, (Acacia Catechu) has also been raised only in the Warangal District, from the second to the first class timber. As compared with the revenue of 1317 Fasli, (the largest on record) there has been a net decrease of Rs. 1,08,549, under the head Major produce, which should not be regretted, as our forests have been over-exploited and require some rest. The number of applicants for timber was 61,288 in 1317 Fasli, which rose to 66,840 in 1318 Fasli.

Rights and Privileges.

30. Against Rs. 47,582 worth of "Gairee" timber granted free to 7,699 privileged persons in 1317 Fasli, in the reserved and protected tracts, timber worth Rs. 37,550 was granted in 1318 Fasli, to 7,170 persons. These figures are however very incomplete and unreliable, both as regards the value of timber and the number of persons. Free grants of "Gairee" timber in the open forests, sanctioned by the Revenue Officers are not included in our statements. One head load of fuel per person and per day, freely extracted without pass, by all the ryots of the Government forests is not accounted for. If correct accounts are obtainable, the Conservator thinks that the exploitation under privileges will be nearly equal to the quantity of timber and fuel sold by the Forest Department. The present extensive privileges granted to ryots, will have soon to be modified, otherwise there will be very few forests left to continue such liberal concessions. Strict supervision and correct statistics are also very necessary in this respect.

(e).—*Free Grants.* Form No. 14—(a).

31. Special free grants of reserved timber worth Rs. 1,418 were issued to 129 persons in 1318 Fasli, against Rs. 1,738 worth of timber granted free to 22 applicants in 1317 Fasli.

Grand total of applicants for timber and fuel.

32. Thus the Forest Department had to attend in 1318 Fasli to 74,139 applications of timber and fuel, against 69,009 of 1317 Fasli. It will not be out of place to explain here what amount of work has to be done by a handful of forest officials appointed in these Dominions. Each purchaser applies in writing to the local forest officer for a permit of certain quantity of timber, in the locality suitable to him, paying one-fourth the amount as earnest money. A printed permit to fell such timber is granted to the applicant and a copy each sent to the forest guard and superior officer. The time allowed to fell such timber is generally limited to four months. When the forest guard reports that the timber is cut and dressed, the local officer proceeds to the forest, measures and values the timber. If the applicant is not present with cash, which is generally the case, a notice is given to him for payment. When the balance is brought, the local officer has again to go and hammer mark the timber and issue a printed pass, showing the quantity and class of timber and the amount recovered for the same. A file is prepared for each such application and a measurement sheet is also attached to it. Cash transactions have also to be entered in the daily cash book and ledger, and the forest revenue has to be credited to the nearest Government treasury. Monthly accounts of these receipts have to be sent to the Conservator's office with the original treasury receipts. Each ranger has two clerks and each forester one clerk, and both have limited powers to sell timber &c. Permits for fuel are issued on verbal requests and cash payments.

In the British forests, timber is generally sold by coupes and the work is generally simplified by selling each coupe by auction. When we have completed our demarcation and survey, and introduced the working plans, this procedure may be followed. At present the work is very heavy and the pay of the district establishment very small.

Minor Forest Produce.—Form No 15.

33. Against Rs. 2,86,713 realized by the sale of Minor produce in 1317 Fasli, Rs. 2,31,976 were recovered in 1318 Fasli. The net decrease of 54,737 is accounted for as follows :—

No.	Produce.	Amount in Rupees.		
		1317 Fasli.	1318 Fasli.	Difference.
1	Bamboos	34,713	33,809	—904
2	Grass and grazing fees	1,31,171	1,18,448	—12,723
3	Canes	180	91	—89
4	Fruits, &c.	10,868	5,842	—5,026
5	Barks and leaves	10,621	7,851	—2,770
6	Pods	8,218	2,207	—6,011
7	Myrobolans	1,852	1,996	+144
8	Minerals	19,551	20,844	+1,293
9	Gulmoha	65,031	38,061	—26,970
10	Other produce	4,508	2,827	—1,681
Total		2,86,713	2,31,976	—54,737

Till 1317 Fasli, flower and fruit of Gulmoha trees, growing in the reserves and protected tracts were sold by and amounts credited to the Forest Department. The revenue of the same outside the forests was credited to the Revenue Department. Owing to the reorganization of the Abkari Department, on the recommendations of the Conservator of Forests, Government ruled in 1318 Fasli that the Gulmoha produce should be auctioned per Taluqa or District by the Revenue Department and the amount credited therein. The flower and fruit of Gulmoha trees of certain forest tracts were however auctioned by the Forest Department for a period of two or three years, and the revenue had therefore to be credited to the Forest Department. Hence Rs. 38,061 were realized in 1318 Fasli. This accounts for a decrease of Rs. 26,970 as compared with 1317 Fasli. The decrease in the other Minor Produce has been affected by unfavourable climatic conditions and local demand.

CONSERVANCY TIMBER IN GOVERNMENT DEPÔTS AND FORESTS.

FORM No. 16.

34. The serial number of this form has now been changed from 18 to 16. Notwithstanding instructions issued in the last report, the Assistants have not shown the quantities of timber in columns 5, 7, 11 and 13 of their forms and hence the figures could not be shown in the appendix to this report. The value of the balance of timber shown at the end of 1317 Fasli was Rs. 72,023, to which fresh timber and fuel worth Rs. 2,445 was added during the year under report, thus making the total value at Rs. 74,468. The paper balance of timber worth Rs. 46,973, shown since some years, against the Chandargunda Range of the Warangal Division was, with the sanction of Government, written off in 1318 Fasli. Timber and fuel worth Rs. 1,157 was sold during 1318 Fasli, leaving a balance worth Rs. 26,338 at the end of the year. Of this balance, only timber and fuel valued at Rs. 3,756 is stated to be in stock and since some years a paper balance of Rs. 22,582 is being carried forward in conservancy statements. No further reports of such balances have been received and only promises are being made by the Divisional Officers since some years. The Assistant of Mahbubnagar has sent an incomplete report and states that the old account papers of the Warangal Division have been lost. These nominal balances should however be soon reported upon and adjusted, and correct balances of timber in depôts and forests shown every year. The details of these balances are :—

Division	Forest or Depot.	Value in Rupees.	
		Actual balance in stock.	Paper balance to be written off after full enquiry.
Warangal.	Warangal Depot Fuel.	1,149 6 0	
	Yellendu do. Timber.	...	3,302 12 10
	Warangal Range do.	...	7,535 2 7
	Pakhal do. do.	2,405 11 10	5,033 5 1
	Yellandu do. do.	200 10 4	1,772 2 10
	Chandargunda Range do.	...	244 1 9
	Total ..	3,755 12 2	17,887 9 1
Kareem-nagar.	Kareemnagar Depot	... Timber	6 4 0
	Sirsilla Range	... do.	293 4 11
	Mahadeopur Range	... do.	1,061 9 7
	Total	1,361 2 6
Jakshattinett—	Chinnur Range	... Timber	140 15 5
Nirmal	Nirmal Range	... Timber	57 9 8
Nizamabad.	Nizamabad depot	... Timber	2 18 4
	Manchippa forest	... do.	371 12 6
	Medak forest	... do.	62 15 8
	Total	437 9 6
Mahbubnagar—	Mahbubnagar forest	... Timber	2,466 7 0
Nalgonda	Mulalguda	... do.	25 8 0
Sub-Division	forest		
Aurangabad	Kannad Reserve	Timber	205 3 3
	Grand Total ..	3,755 12 2	22,582 0 5
		26,337 12 7	

Warangal Division. Warangal Depot.—10 waggon loads of fuel from Mahbubabad forest, brought here in 1318 Fasli, at a cost of Rs. 693 and are being sold at the depot at 8 annas a Maund of 80 lbs.

Yellandu depot.—The promised report not made as yet, of the paper balance of Rs. 3,303.

Warangal range.—Old record lost, report should have however been sent of the existing circumstances, regarding nominal balance of timber worth Rs. 7,535.

Pakhal range.—Existing timber of Rs. 2,406 to be sold soon and the promised report of the nominal balance of Rs. 5,033 to be sent.

Yellandu range.—Rs. 201 worth of existing timber should be sold soon and report for adjusting the balance of Rs. 1,772 to be made.

Chandargunda range.—Timber worth Rs. 201 sold at Yellandu depot, but the credit note not sent in time, hence shown as balance.

Thus the Warangal Assistant has to sell existing timber worth Rs. 3,756 and report on the paper balance of Rs. 17,888.

Kareemnagar Division. Kareemnagar depot —Rs. 6-4-0 should at once be recovered from the depot clerk.

Sirsilla range.—Old and rotten timber worth Rs. 293 should be reported soon.

Mahadeopur range.—No report sent yet of the paper balance of Rs. 1,062.

Notwithstanding instructions issued in the report for 1317 Fasli, the Assistant has not shown the quantity and value of more timber stated to be lying in the Sirsilla and Mahadeopur ranges.

Lakshattipett Division. Chinnur range.—Report should be sent for old and rotten timber lying about, worth Rs. 141.

Nirmal Division. Nirmal range.—Rotten timber worth Rs. 58 should be reported upon.

Nizamabad Division. Nizamabad depot.—Rs. 3, value of the lost timber, to be recovered soon from depot clerk.

Manchippa forest.—The paper balance of Rs. 372 should be reported soon.

Medak forest —Rs. 63 worth of timber has also to be reported soon.

Notwithstanding last year's remarks, the Assistant of Nizamabad has again omitted showing the above balance in his statement and report. Mr. Farrell is very careless in this respect.

Mahbubnagar Division. Mahbubnagar forest.—Old record regarding paper balance of Rs. 2,466 is reported as lost. Assistant's report is incomplete. His files have to be seen.

Nalgonda range.—Amount for timber cut by applicants valued at Rs. 25-8-0 not as yet recovered.

Aurangabad Division. Kanad range.—No report of the paper balance of timber worth Rs. 205, has been submitted as yet.

CHAPTER III. FINANCIAL RESULTS.

MINOR PRODUCE IN OPEN FORESTS SOLD BY THE REVENUE OFFICERS.

FORMS No. 17 AND 18.

35. Till 1317 Fasli, the amounts recovered for grass and grazing were shown annually under the forest revenue. To tally with the Accountant General's "Goshwaras," the Taluqdars have however excluded these items from the Minor forest produce statements of 1318 Fasli. For comparison, Rs. 72,299 shown as forest revenue in 1317 Fasli, have therefore to be deducted from the total revenue of Rs. 1,53,173. Then the forest revenue for 1317 Fasli would be Rs. 80,874, against Rs. 83,370 realised in 1318 Fasli, showing an increase of Rs. 2,496. The details are :—

Items.	Revenue in Rupees.		
	1317 Fasli.	1318 Fasli.	Difference.
"Gairee" timber and fuel	5,448	7,159	+ 1,716
"Padvar" bark	42,974	46,984	+ 4,010
"Amaltas" bark	3,770	2,753	- 1,017
"Babool" and "Maddi" barks	595	574	- 21
Myrobolans	1,840	701	- 1,139
"Babool" pods	20,419	19,317	- 1,102
Ebony leaves	11	+ 11
Miscellaneous ; interest from contractors, &c. ...	5,833	5,871	+ 38
Total ...	80,874	83,370	+ 2,496

36. At the end of 1317 Fasli, total outstandings were shown at Rs. 86,907, but of this amount, Rs. 65,440 have been deducted in 9 districts and the Taluqdars of Warangal and Nalgonda have added Rs. 44, in the statement for 1318 Fasli. Notwithstanding repeated requests, no Taluqdar has explained why such large deductions were made. It is however surmised that the outstanding forest revenue of grass and grazing must have been struck off the balance and transferred to the statement of land revenue. It is hoped that Government will instruct the Taluqdars to explain such matters in the annual forest statements. Thus, the recoverable balance for 1317 Fasli of Rs. 21,511, added to the current revenue Rs. 79,482 for 1318 Fasli, makes a total of Rs. 1,00,993. Rs. 6,245 as outstandings, and Rs. 77,125 as current revenue, were recovered during 1318 Fasli, leaving a balance of Rs. 17,623, at the close of the year under report.

REVENUE AND EXPENDITURE OF THE FOREST DEPARTMENT—FORM NOS. 19 & 23.

37. The total revenue realized in 1318 Fasli from Government forests, amounted to Rs. 8,03,856, and the expenditure Rs. 2,19,054, leaving a surplus of Rs. 5,84,802. The receipts for 1317 Fasli were Rs. 9,50,124, expenditure Rs. 2,07,919 and surplus Rs. 7,42,205. It has however to be remembered that 1317 Fasli was a record year in the history of our forest administration and in absence of working plans, such large receipts could not be maintained without permanently injuring the forests. The following figures will show the average revenue and expenditure under different Conservators, of the past 23 years, ending 1317

Fasli. The ("Dastgardan") revenue from attached Jagirs, &c., has not been included therein.

Names of Conservators.	Annual Averages.					
	Fasli years.	No. of years.	Receipts.	Charges.	Surplus.	Percentage of expenditure on gross revenue.
			Rs.	Rs.	Rs.	
Mr. Dobbs	1295-1296	2	1,07,868	62,516	45,352	57.95
Mr. J. Ballantine	1297-1302	6	94,128	90,568	3,560	96.57
Mr. W. F. Biscoe	1303-1314	12	3,10,852	1,42,468	1,68,384	45.83
Mr. Sohrabji Jamsheedji	1315-1317	3	7,95,169	1,97,178	5,97,991	24.79
Average of 23 years			2,99,836	1,29,199	1,70,637	43.09
Mr. Sohrabji Jamsheedji, 1318 F.			8,93,856	2,19,054	5,84,802	27.26

38. In 1295 Fasli, the forest receipts were Rs. 1,06,042, expenditure Rs. 62,134 and surplus Rs. 43,908. With fluctuations till 1302 Fasli, the revenue steadily rose from 1303 to 1317 Fasli, the receipts for the last mentioned year being Rs. 9,50,124, expenditure Rs. 2,07,919 and surplus Rs. 7,42,205. In other words, the revenue very nearly increased nine-fold within 23 years, whereas the expenditure rose a little over three-fold only. The following comparative figures for 1317 Fasli, of the British and Hyderabad forests, will be interesting :-

Revenue in 1907-08 = 1317 F.					Remarks.
Provinces.	Forest area in Sq. miles	Gross Rs.	Surplus Rs.	Percentage of expenditure on gross revenue.	
United Provinces ..	4,163	24,09,745	12,15,732	50	The forest areas of Hyderabad are spread over 82,000 square miles and are yet unsurveyed and unsettled. After settlement, net forest area may be reduced to about 8,000 square miles.
Central Provinces ..	22,002	22,90,128	7,66,721	69	
Bombay Presidency and Sindh ..	13,053	36,46,177	16,90,750	54	
Madras Presidency ..	19,607	38,93,830	11,12,973	72	
Travancore State 1909 A. D.	2,161	8,66,269	2,75,301	68	
Hyderabad State	12,868	9,50,124	7,42,205	22	

The forest areas of the United Provinces are divided into two circles, 12 divisions, 65 ranges and 585 beats. Those of the Travancore State are managed by one Conservator, with 8 divisions and 31 ranges. On the other hand, our unsettled and unwieldy forests, 34 protected tracts and about a hundred open forests spread over an area of about 82,000 square miles, are under the control of one Conservator, with 8 divisions, 22 ranges and 495 beats. Protection of forests commenced since 1304 Fasli, a period of 16 years, with 4 protected tracts and since then the small establishment has been kept busy with demarcation, sale of timber without working plans, proposing protection of new tracts and settling arable areas for extension of cultivation, &c. In the budget notes for 1320 Fasli, the Assistant Minister of Finance has been pleased to remark that the Forest Department has made very little progress in revenue and administration. As regards the progress in revenue, the above figures speak for themselves. Administration could not be improved until our forests are demarcated, settled and surveyed and for this work large establishments are required. If Government are inclined to expedite the introduction of proper working of the forests, the following requisitions will have to be sanctioned.

(1) One well trained Deputy, to relieve the Conservator of some touring and office work, as also instructing local forest officers in collecting data for working plans.

(2) Increase of about 40 deputy rangers.

(3) Increase of about 300 forest guards and improvement in their present grades. Starting a local forest school for training reliable class of men.

(4) Corresponding increase in the establishments, with improvement in salaries.

(5) Increase in the number of surveyors and survey establishments.

(6) Regranting of powers to the Conservator for adjusting the establishments according to local demands. These powers were granted by Government in 1310 Fasli, but suspended since 1316 Fasli.

(7) Regranting of powers to the Conservator for adjusting amounts under budget sub-heads.

(8) Sufficient increase in the annual allotments of conservancy funds and powers to distribute the same over divisions, without the sanction of Government.

(9) Limiting appeals on administrative orders of the Conservator. There should be no appeal on punishment to persons under Rs. 30 pay.

(10) Powers for employing "Gair Mulki" trained hands. We have

a very limited number of "Mulkeys" suitable for forest service and the training is also very limited.

39. As regards the details of the forest revenue in 1318 Fasli, paras 16 and 23 of this report may be read. The figures compare as follow :—

Items.	1317 Fasli Rs.	1318 Fasli. Rs.	Difference. Rs.
Major produce ...	6,29,492	5,20,943	-- 1,08,549
Minor produce ..	2,86,713	2,31,976	-- 54,737
Miscellaneous ..	33,919	50,927	+ 17,018
Total ..	9,50,124	8,03,856	-- 1,46,268
"Dastgardan" deposits ..	6,986	8,921	+ 1,935
Grand Total	9,57,110	8,12,777	-- 1,44,333

40. Under the head of Major produce, there has been a decrease of Rs. 75,025 in the sale of timber from Government forests and of Rs. 50,550 from areas under Criminal Settlement and large tanks. A small decrease of Rs. 1,854 by the sale of Government timber in old Patta lands and boundary lines, and another decrease of Rs. 4,810 in the fuel sale, make a total decrease of Rs. 1,32,239 in the revenue under this head. Against this, there has been an increase of Rs. 2,031 by the sale of timber on Ijara and Banjar lands, and Rs. 21,659 for timber on newly cultivated lands. Until working plans are in operation, it is not advisable to continue heavy fellings in the protected forests. The Criminal Settlement of Lingal having proved a failure, fellings have been stopped there. No new large tanks in the forest areas were under repairs. These facts account for the net decrease of Rs. 1,08,549.

41. By the sale of Minor forest produce, a net decrease of Rs. 54,737 may be briefly explained as follows :—

A decrease of Rs. 26,970 by the sale of Gulmoha flowers and fruits, may be attributed to the transfer of this item from the Forest to the Revenue Department. Another total decrease of Rs. 29,204 by the sale of grass and grazing fees, fruits, barks, leaves, pods, &c., is accounted for by climatic conditions and local demands. Against this decrease of Rs. 56,174, an increase of Rs. 1,437 has occurred by the sale of Myrobolans and minerals. Of the Rs. 20,844 recovered for minerals, Shahabad stones form the principal factor.

42. The details of the miscellaneous revenue are :—

Items.	1317 Fasli. Rs.	1318 Fasli. Rs.	Difference Rs.
Confiscation of forest produce	5	+ 5
Government share of attached Jagirs, &c. ..	1,940	891	-- 1,049
Fines, &c., in compounded cases ..	19,770	16,611	-- 3,159
Refunds ...	79	15	-- 64
Cash Deposits or security ...	9,804	26,851	+ 17,047
Other sources ...	2,326	6,564	+ 4,238
Total	33,919	50,927	+ 17,018

None of the Assistants has explained why the Government share of 1½ anna per rupee of attached Jagirs, &c., is less by Rs. 1,049 as compared with previous year, whereas there has been an increase of Rs. 1,935 in the "Dastgardan" deposit. This will have to be explained by them. The decrease of Rs. 3,159 in fines may be attributed to a decrease in the value of detected forest produce. The Assistant of Warangal has shown Rs. 26,851 as cash deposits, but has not explained under what head this amount will be credited in future. It seems that this deposit is relating to the contracts of Gulmoha flowers and fruits, auctioned for 3 years. Some explanation ought to have been given, which is not forthcoming.

43. There has been an increase of Rs. 1,935 in "Dastgardan" deposit of attached Jagirs, &c.

44. Thus including the above mentioned 4 items, the forest revenue for 1318 Fasli was Rs. 8,12,777, against Rs. 9,57,190 of the previous year. The decrease of Rs. 1,44,333 is about 15 per cent.

45. Since 1315 Fasli, the State forests are being given some rest, and nearly half the revenue under the head of Major produce, is being derived by the sale of timber from Ijara villages, Patta lands, areas under large tanks and Criminal Settlement. Notwithstanding these restrictions, there has been a steady increase under this head. The revenue under Minor produce and Miscellaneous items, has also increased, as will be seen from the following figures :—

	Average annual revenue in rupees.			
	Major.	Minor.	Miscellaneous	Total.
From 1304 to 1312 Fasli, 9 years ...	1,82,299	77,321	24,940	2,84,560
From 1313 to 1317 Fasli, 5 years ..	4,25,230	2,20,424	27,466	6,73,120
1318 Fasli ...	5,20,907	2,31,975	51,874	8,03,856

These figures prove that the improvement in the forest revenue has been steady and although as compared with the record year of 1317 Fasli, there has

been a decrease of Rs. 1,44,333 in the total revenue of 1318 Fasli, the figures for the last mentioned year, still stand much higher than the average of the past 5 years.

46. For comparison of divisional forest receipts, excluding deposits of Jagirs, &c., the following statement may be perused :—

Divisions.	1317 Fasli.	1318 Fasli.	Difference.	Percentage of difference.
	Rs.	Rs.	Rs.	
Direction and City Inspector ..	1,016	1,304	+ 288	+ 28.35
Warangal	3,31,002	3,02,203	— 28,799	— 8.70
Kareemnagar	1,33,755	87,589	— 46,166	— 34.52
Lakshattipett	1,23,965	96,947	— 27,018	— 21.76
Nirmal	1,03,065	84,653	— 18,412	— 18.83
Nizamabad	61,767	71,504	+ 9,737	+ 15.76
Mahbubnagar	93,061	71,276	— 21,785	— 23.41
Aurangabad	52,632	46,525	— 6,107	— 11.60
Gulbarga	49,861	41,855	— 8,006	— 16.07
Total	9,50,124	8,03,856	— 1,46,268	— 15.50

It is gratifying to note an increase of 16 per cent in the revenue of the Nizamabad Division, during the year of a general decrease in the other divisions. Decrease of 34.52 per cent in the Kareemnagar Division is partly owing to the general reasons already explained and partly to the Assistant being engaged in the Special Flood Relief work at Hyderabad. The decreases respectively of 22 and 19 per cent in the Lakshattipett and Nirmal Divisions, do not reconcile with the fact that lot of forest lands are being given out by the Revenue Department for cultivation and much timber has yet to be measured and its value received from the applicants. No proper "Vasool Baquies" have been kept in both the offices and the Conservator is trying his best, without much success, to get the statements from the Revenue and the Forest Officers. There are also about 150 Ijara villages in the Adilabad District, timber of which has to be sold. Decrease of 23.41 per cent in the Mahbubnagar Division, may be accounted for by the fact that lot of timber in the Criminal Settlement of Lingal had been sold till 1317 Fasli, at very cheap rates, to the merchants of Achampett, &c, and there may have been a lot in stock with them. As much of the old Patta timber in the Aurangabad Division had been sold till 1317 Fasli, and the forests there could not stand heavy fellings, 11.60 per cent of decrease in revenue is not objectionable. As the Hutti Gold Mines got their fuel from old Pattedars and some Jagirs, they did not purchase large quantity of Government fuel and this is likely the chief cause of a decrease of 16 per cent in the revenue of the Gulbarga Division.

47. The four Assistants of the Warangal, Kareemnagar and Adilabad Districts could continue to sell for some years, large quantities of timber from Ijara villages, without exploiting Government forests. The Ijaradars have to be induced to purchase standing forests in easy instalments. Other Divisional Officers have to submit provisional working plans and sell timber on the rotation system. The large Samasthans of Paloncha and Malloor Mangapett in the Warangal District and the Paigah of Elgadap in the Adilabad District, are under-selling timber and hence the Deccan Mining Company and other Government customers are being drawn there. We should complete demarcation, commence fire protection and working plans, before undertaking large sales of timber from Government forests. The present method of selling timber is rather a "Selection System" suitable to purchasers, than to the Forest Department. Applicants fell best trees and leave crooked ones in the forests. The whole system requires over-hauling but unless large establishment is sanctioned, nothing could be done. For the sale of Minor forest produce, all the Divisional Officers have to wake up their subordinates and keep a good watch over them. If the subordinates do their work honestly and diligently and the Divisional Officers exercise good control, there is every reason to hope for better financial results under this head.

48. The expenditure of the past two years under different heads, compares as follows :—

Items	1317 Fasli. Rs.	1318 Fasli. Rs.	Difference. Rs.
<i>A—Conservancy and Works.</i>			
Timber, fuel and Minor produce removed from forests ..	1,288	1,284	— 4
* Repairs to roads and Buildings	41	245	+ 204
Demarcation	597	816	+ 219
Survey	6,120	6,417	+ 297
Sowing and planting	38	105	+ 67

FINANCIAL RESULTS PER PROTECTED AND OPEN FORESTS.

FORM No. 20.

49. The total revenue and expenditure per Protected and Open forests were :—

Items.	1317 Fasli. Rs.	1318 Fasli. Rs.	Difference. Rs.
Receipts from Protected forests	6,92,936	5,52,533	— 1,40,403
Receipts from Open forests	2,64,174	2,60,244	— 3,930
	9,57,110	8,12,777	—1,44,333
Percentage of expenditure on gross revenue of Protected forests	16.54	12.00	...
Percentage of expenditure on gross revenue of Open forests	13.11	15.11	...
Total	21.71	26.95	...

RECEIPTS AND OUTSTANDING-ES.

FORM No. 21

50. Against an outstanding balance of Rs. 1,75,976 at the end of 1317 Fasli, unrecovered balance at the close of the year under report amounts to Rs. 1,42,097. Of the latter amount, Rs. 89,280 relate to old outstandings and Rs. 52,817 to the current revenue. The Divisional Officers should be prompt in recovering good debts and reporting on bad ones.

LIABILITIES AGAINST THE DEPARTMENT.

FORM No. 22.

51. Besides the balance of Rs. 52,801 at the end of 1317 Fasli, Rs. 8,922 were sent in 1318 Fasli to the Government treasuries. Rs. 49-9-0 had been adjusted under proper heads and Rs. 12 paid back, by the order of the Conservator. This left a balance of Rs. 61,661, at the close of 1318 Fasli. It has to be noted here that the Taluqdar of Nizamabad has been paying annually through the Civil Court large deposits of Khooni-Jalalpoor Jagir, to a decree holder, without referring the matter to the Conservator. Statement of correct accounts has been called for. It is possible that in other cases such payments are being made, but the undersigned is not informed of the same. The balance of Rs. 61,661 is therefore not actually existing in the treasuries. It only shows what amounts have been credited to the treasuries as "Dastgardan" by the Forest Department. Such payments should not be made without the sanction of the Conservator, and some rules have to be introduced by Government regarding them.

SPECIAL FLOOD RELIEF OPERATIONS.

52. On the 23rd of Aban 1317 Fasli, Hyderabad was visited by unpre-

cedented Flood of the Moosi river, and the destruction and havoc that spread over a large area of the city and suburbs, need not be reiterated here. The Forest Department had a share in the relief measures, which it has executed to the satisfaction of Government. Besides removing debris on the road from choori Bazar to the old Bridge, the Department had the sole charge of collecting and disposing of waif timber and stones, from the City and Residency, as also from the banks of the Moosi and the Krishna rivers, up to the eastern boundary of His Highness the Nizam's Dominions, an area of about 200 miles in length. Special Magisterial powers were granted to the Conservator for the collection and disposal of waif timber and stones, and to hand over other properties to the parties concerned. The following statement will show the financial results as regards relief measures, adopted by the Forest Department:—

No.	ITEMS.	Amount in M. S. Rupees			
		Recovered in cash by sale of unclaimed timber.	Value of timber granted free to poor sufferers.	Value of timber &c. granted to successful claimants.	Total value.
RECEIPTS.					
1	Waif timber	83,452	6,724	9,117	99,293
2	Fuel from uprooted trees	4,577	4,577
3	Expenses recovered from successful claimants.	3,039	3,039
4	Slab and building stones	2,176	150	21	2,347
5	Miscellaneous	296	296
	Total Receipts ..	93,540	6,874	9,138	1,09,552
EXPENDITURE.					
	In cash.				
1	Pay of temporary establishment ..	3,944
2	Office contingencies	311
3	Travelling expenses	274
4	Extra contingencies	493
5	Conservancy bills for sawars, coolies, carthire &c.	7,539
6	Purchase and repairs of axes, saws &c. ...	1,157
7	Up-keep of a Motor car	419
	Total Expenditure ..	14,137	6,874	9,138	30,149
	Net Balance	79,403			79,403

As the timber was very much destroyed by the force of water and we could not bring all the timber from 200 miles to Hyderabad, only waif and useful timber within 30 miles of Hyderabad was brought and disposed of there. The rest of the timber, on an area of about 170 miles in length, was sold locally. We had also to help the flood sufferers of Hyderabad and the Districts. For these reasons, timber and stones were sold on almost nominal rates, generally to the flood sufferers. Taking an average price at about one-fourth the prevailing market rate, the figures shown in the above statement have to be quadrupled. Thus the original value of waif timber and stones collected by the Forest Department may roughly be estimated as follows:—

Items.	Rs. Sale value.	Rs. Actual value.
Timber	99,293	3,97,172
Fuel	4,577	18,308
Slab and building stones...	2,347	9,388
	1,06,217	4,24,868

The expenditure of Rs. 14,137 for collecting and disposing of the aforesaid property roughly valued at Rs. 4,24,868, is 3·32 per cent. The following officers did their work very zealously, sacrificing their health, and grateful thanks of the Conservator are due to them. It may be remembered here that one of these officers was himself a sufferer in property at Hyderabad, from the flood.

1. Mr. Ahmed Mohiuddin, Asst. Conservator of Karimnager Division.
2. Mr. Mirza Mhd. Ali, Sub-Asst. Conservator of Adilabad District.
3. Mr. Mhd. Noorool Hassan, Sub-Assistant of Nalgonda District.
4. Mr. Venkatpapiiah, Ranger of Medak.
5. Mr. Mhd. Ziauddin, Ranger of Paloncha.
6. Mr. Mhd. Shareef, Ranger of Vazeerabad, now dead.
7. Mr. Mhd. Abdul Qayoom, Ranger of Nirmal.
8. Mr. Mhd. Abdul Aleem, City Inspector.

4 Foresters, 2 clerks, 33 forest guards and 5 office peons were also engaged on this work, but the pay of the Divisional and Subordinate Officers and some forest guards employed only for a couple of months was not debited to the flood account. Besides his Circle charge, the Conservator was fully engaged from the beginning of the Flood Relief Operations for a period of nearly 7 months, and just after the work was completed, he was obliged to go on two months' leave to recruit his health. It may be explained here that after adjusting Rs. 10,000 ad-

advanced by the Central Treasury for starting the work, Rs. 79,403 were credited to the Central Flood Relief accounts and not to the Forest Department. A two seated Motor car was also purchased at a cost of Rs. 2,333, and after keeping it for 6 months, was sold for Rs. 1,500. The loss of M. S. Rs. 833 has also been borne by Government.

53. Axes, saws, fencing wire, scales and other articles purchased by relief funds, are in the Conservator's Office and by the sale of these articles in future, about Rs. 500 may be realized.

CHAPTER IV. ADMINISTRATION.

STRENGTH OF THE DEPARTMENT.

54. Form No. 24 will show, how the controlling officers were engaged during the year under report. The Conservator went on two months' privilege leave, from 9th Khurdat to 8th Amerdat, and Mr. E. A. Partridge, Senior Assistant, officiated for him. Mr. Shrinivas Rao, Personal Assistant, received his promotion of Rs. 50 from the beginning of the year. Mr. Mirza Mahomed Ali received an increment of Rs. 25 from 1st Tir 1318 Fasli. After passing higher grade examination at the Dehra Dun College, Mr. Meer Sana-ulla, was appointed Sub-Assistant on Rs. 100 salary, on the 3rd of Khurdat 1318 Fasli. One Conservator on Rs. 1,200, 8 Assistants from Rs. 450 to Rs. 250, 7 Sub-Assistants from Rs. 150 to Rs. 100 and one Personal Assistant on Rs. 300, formed the total directing and controlling strength of the department, at the close of 1318 Fasli. As compared with the last year, there has been an increase of one Sub-Assistant, and a monthly increase of Rs. 175 in the salaries of higher officers. One temporary Survey and Settlement officer, on Rs. 150 pay and Rs. 50 permanent travelling allowance, has also been maintained since 1313 Fasli.

55. Including the temporary establishments of the Aurangabad Division and Raichur District, the strength of the executive and protective staff remained the same, viz., 22 Rangers from Rs. 80 to Rs. 50, one City Inspector on Rs. 30, 58 Foresters from Rs. 30 to Rs. 15, 3 Daffedars on Rs. 12 and 10, and 504 forest guards on Rs. 8 and 7. Of the 504 guards, six appointments have not been made since some years, although the budgets provided for them.

56. With the increase of one Sub-Assistant in charge of the Medak Sub-Division, two clerks on Rs. 20 and 15 each, and two office peons on Rs. 7 each, were added in Khurdat 1318 Fasli. Thus the total clerical and menial establishments for 1318 Fasli, were as follow :—

Details.	Clerks and Surveyors on Rs.										Total.	Menials on Rs.							Grand Total.					
	100	75	55	50	45	40	35	30	25	20		16.8.0	15	12	10	9	15	10		8	7	6	5	Total

57. The departmental examination of controlling and executive officers, resulted as follows. —

Grades.	Passed in all subjects.			Failed in few subjects in 1318 F	Absented in 1318 F	Total strength.
	Till 1317 F.	In 1318 F.	Total.			
Assistants ...	7	1	8	...	1	9
Sub-Assistants ...	4	1	5	2	...	7
Rangers and City Inspector ...	11	4	15	3	5	23
Foresters and District Inspectors ...	10	19	29	8	23	60
Total ...	32	25	57	13	29	99

58. As shown under para 62 of the last year's report and in Form No. 26, thirty-two students were enlisted in 1317 Fasli, for the Local Forest school. Two were excluded in pre-final and thirty sent for final examination. Of these, 21 passed in the ranger's and six in the forester's class. Very few hands remain unemployed. There was an unspent balance of Rs. 756-10-0 of the last course of 1314 Fasli, to which Rs. 1,932 were added during 1317 and 1318 Fasli; Rs. 600 pertaining to entrance fees and Rs. 1,332 monthly fees. The course lasted for fifteen months, from Dai 1317 to Farwardi 1318 Fasli. Of the total receipts of Rs. 2,638-10-0, Rs. 1,907-10-0 were disbursed as follow, and the balance of Rs. 731, deposited in favour of the Conservator, in the Central Treasury.

Allowance to Superintendent and salary to Assistant Superintendent				M.	S.	Rs.	a.	p.
...	1,270	3	6
Contingencies	68	6	4
House rent	304	13	6
Purchase of furniture	193	12	8
Miscellaneous	70	6	0
Total				1,907	10	0

With a view to enlarge the establishment and enlist reliable trained hands, we shall soon have to start the school again. We have at present sufficient number of passed students for rangers' and sub-rangers' posts, but are very short in the number of trained guards and foresters.

59. The divisional officers have done fairly good work. The Conservator has however the painful duty to record here that Messrs. Ghouse Mohiuddin and F. C. Edwards have not been exercising strict supervision over their subordinates and lot of timber, &c., is being stolen in their divisions, with the connivance of some local officials and guards. If the supervision of these divisions is not improved, the undersigned will have to make some other arrangement. The Sub-Assistants in general are also very apathetic in this respect.

60. *Tour of Inspection.*—Owing to the special extra work of the Flood Relief measures at Hyderabad, lasting for a period of 7 months of the working season and two months' leave during the hot weather, the Conservator was not able to make extensive tour during 1318 Fasli. He travelled in all 44 days, covering a distance of 654 miles; 437 miles by rail and 217 by ordinary roads. Along with the inspection and disposal of drift wood on the banks of the Moosi river, some open teak forests of the Bhongir Taluqa were inspected by him. The office of the Assistant Conservator of Gulbarga was also inspected. This deficiency has been made up in 1319 and 1320 Fasli. The Assistants have not sent in statements of the total number of days travelled by each officer. It has often been impressed upon the controlling officers that much of their time should be spent in demarcation, preparing plans of operations, and fire protection. The purchasers have, since several years, been felling trees generally worth preserving, and much of the exploitable forest is left standing. For annual fellings, certain areas should be selected, exploitable trees marked down and sales limited to them. The sale of timber in the hundreds of Ijara villages in the Warangal Subah, should also be attended to. This will greatly improve our forests and the revenue will not fall short.

FOREST LANDS BROUGHT UNDER CULTIVATION.—FORM No. 25.

61. The following figures will convince Government, that the work imposed by the Revenue Department, of demarcating and valuing forest lands for individual cultivators, is steadily increasing every year, with the result that very little time is spared for important forest administrative matters. Such off-hand work could not be done satisfactorily. It is also quite possible that forests worth preserving are being denuded and timber sold at a great loss to Government.

Fasli years.	Granted for Cultivation.				Applications rejected after inspection.			Total cases disposed.			Balance of cases at the end of the year.		
	Villages.	Applicants.	Area in Acres.	Value of timber.	Villages.	Applicants.	Area in Acres.	Villages.	Applicants.	Area in Acres.	Villages.	Applicants.	Area in Acres.
1315	209	489	18,726	Rs. 11,519	134	198	13,134	343	687	31,860	517	1,101	78,790
1316	374	1,019	43,509	39,407	186	526	62,013	560	1,545	1,05,522	712	2,401	1,38,621
1317	412	1,096	43,373	77,487	161	438	33,841	573	1,534	77,214	1,167	3,425	2,40,460

If the following proposals are soon sanctioned by Government, both the departments will be profitted.

(1). In each District, one Taluqa at a time should be selected by the Taluqdar, where the demand for lands is greatest and individual applications for forest lands in the whole district, should be deferred in the Revenue Department.

(2). One full time Forest and one Revenue Officer should be at once deputed for the internal demarcation of the villages of the Taluqa selected as above, in accordance with the rules contained in Government Circular No. 18 of 1313 Fasli, and fresh proposals approved in the Committee of Subedars, held in Aban 1319 Fasli. If the Revenue Department could not spare an officer, then the work to be entrusted to the Forest officer.

(3). One or two surveyors to be posted for cutting lines and surveying lands, which may be set apart in each village. Such boundaries to be shown on village maps, if the Taluqa is surveyed.

62. The scheme proposed by the Irrigation Settlement officer in the aforesaid Committee, of appointing one officer on special duty, with a number of surveyors and menials, will not only be very expensive, but the settlement of lands by this procedure will take longer time, than by starting the work in a Taluqa of each District. With the consent of the Subedar of Warangal, the internal demarcation of the Yellandu Taluqa, has already commenced in 1320 Fasli, under a Ranger on special duty, with no Revenue officer to associate with him. The Sub-Assistants of Forests, could very profitably be employed on this work, or rangers selected for the same and Sub-Assistants deputed in charge of those ranges. The attention of Government is earnestly invited to this most important proposal.

63. 13,012 letters were received in the Conservator's office during the year under report and 11,558 were issued therefrom. To the balance of 3,950 files under correspondence at the close of 1317 Fasli, 1,964 fresh files were added in 1318 Fasli. 1,972 files were disposed of and 3,942 remained pending at the close of the year under report. Messrs. Shrinivasrao, Mahomed Khaja, Ramrao, Sardar Singh and Lutchmiah have worked very hard.

64. Cordial thanks of the Forest Department are due to many of the Revenue officers for their co-operation, but the following officers deserve special mention.

1. Mr. Rai Murlidhar, Subedar of Warangal.
2. The Nawab Burzo Jung Bahadur, Subedar of Aurangabad.
3. The Nawab Framroze Jung Bahadur, Subedar of Medak.
4. Mr. Mohammed Ali, First Taluqdar of Adilabad.
5. Mr. Fasihuddin Ahmed, First Taluqdar of Aurangabad.
6. Mr. Syed Mohiuddin Ali Khan, First Taluqdar of Parbhani.
7. The Nawab Sohrab Nawaz Jung Bahadur, First Taluqdar of Medak.
8. The Nawab Luqat Jung Bahadur, First Taluqdar of Nizamabad.
9. Raja Indarkaran Bahadur, First Taluqdar of Gulbarga.

65. Owing to tremendous office and touring work, as also to incorrect and late receipts of annual statements, the submission of this report has very much been delayed, for which, the Conservator begs to be excused by Government. In fact the work of the Circle is too much for one man and application for the appointment of a fully trained Deputy Conservator, has been submitted to Government. The scheme for reorganizing the whole department is also under preparation.

CAMP TALUQA CHINNUR,
Adilabad District,
10th April 1917.

...	
...	
...	
...	This tract has been divided into six blocks. Preliminary demarcation of these blocks has been completed and the 1st Taluqdar's consent and Conservator's sanction obtained. This tract has been divided into 2 blocks. Demarcation has been completed and the 1st Taluqdar's consent obtained. There has been some alteration in the area shown in columns 9 and 10 but as the tract has not yet been surveyed, the former area has been shown.
Conservator's Nos. 10640 of 1317 F. and 3630, 3561, 3541, 3541 3542, 3629, 3543, 4216 5175 and 6389 of 1318 F.	Of this tract two blocks have been demarcated and two more have yet to be demarcated 2. Area shown in column 8 has been excluded for cultivation.
...	Of this tract 3 blocks have been demarcated and two have yet to be demarcated.
...	
Conservator's Rubkar No 2389 dated 5th 13- fandâr 1318 F.	Uttoor block has been internally demarcated this year and the area shown in column 8 consisting of 11,540 bighas of cultivated and 22,006 bighas of Banjar lands has been excluded. The area of Banjar lands has been transferred to the list of Open Forests.
...	
...	
...	The Assistant Conservator has not quoted the No. and date of sanction for the exclusion shown in column 8.
...	
...	Both these tracts have been surveyed and the correct areas shown here.

VIDE PARAGRAPH 3.

for the year 1318 Fasli.

Expenditure on external demarcation.		Internal demarcation			Remarks.
On new work.	On repairs.	Linear miles		Amount paid during the year.	
		Till last year.	During the year.		
11	12	13	14	15	16
Rs. a. p.	Rs. a. p.				
...	25 12 0	Warangal Division.
97 9 0	29 15 0	<i>Pakhal</i> :—24 miles cleared and 2.75 miles widened at Rs. 25-12-0. 17.25 miles cleared during fire protection and 145.25 miles cleared by ryots. 9.25 miles of line not allowed to be cleared by His Highness' Shikargah authorities and owing to Garia Jagir dispute.
...	<i>Yellandu</i> :—9.76 miles of new line cut 30 feet wide and 2.17 miles of old 15 ft. line, widened to 30 ft. at a total cost of Rs. 97-9-0, and Rs. 10-13-6 respectively. For 12 miles of old line cleared by the Peccan Mining Co. in 1317 Fasli, Rs. 19-1-6, (half cost) paid in 1318 F.
...	<i>Kanakgerri and Jamlapur</i> :—Existing lines cleared by ryots.
...	<i>Gubbagurti</i> :—This had been omitted by the Assistant in his Form No. 5.
167 0 0	<i>Anapreddipalli</i> :—Three adjoining villages of Paloncha Taluq, Ganeshlupad, Nagpalli and Balrajgudda, included in this reserve, account for an increase of 30 miles in the total mileage of last year. 56.51 miles of line have been cut broad enough for theodolite survey and will have to be broadened later on to 30 ft.
...	
264 9 0	55 11 0	
10 4 4	
...	Karimnagar Division.
...	<i>Mahadeopur</i> :—Although lines had been cut years ago, they were not properly cleared every year and cultivation has been allowed within the lines to such an extent that the present Assistant has been asked to redemarcate the reserve.
20 0 0	<i>Nirsilla and Aralota</i> :—The lines should be cleared every year. 4 miles of line cut at a cost of Rs. 20.
20 0 0	
5 0 0	
...	Lakshatipett Division.
...	<i>Sirpur, Block No. 1</i> :—(Owing to boundary dispute of Yempalli Jagir, line could not be cut. Old lines cleared by ryots.
...	<i>Block No. 2</i> :—Against last year's remarks, the Assistant reports, the coolies could not be found for payment of 14 miles line cutting, and hence no expenditure this year.
76 2 10	<i>Block No. 3</i> :—Of the newly cut 40.25 miles of line, payment has only been made for 12.75 miles at Rs. 6 per mile. Why the rest has not been paid, has to be explained. Owing to boundary dispute, 3 miles remained undemarcated.
89 2 4	<i>Block No. 4</i> :—Rs. 32 8-4 not yet paid for work done. Requires explanation. The figures as regards artificial and natural lines have been corrected according to actual measurements.
...	
34 14 0	<i>Rayura Block No. 1</i> :—The demarcation of this block has been completed at a total cost of Rs. 79-8-0. The lengths have been measured and corrected.
...	<i>Block No. 2</i> :—Owing to boundary dispute with Subai Ijara, nearly one mile of demarcation could not be completed.
200 3 2	
...	<i>Jangaon, Tirani Block</i> :—Through Conservator's No. 4397, dated 16-6-18 Fasli estimate of Rs. 240 sanctioned. Preliminary demarcation completed. Line could not be cut owing to scanty and turbulent population. The Assistant should pay higher wages and get outside labour.

11	12	13	14	15	16
Rs. a. p.	Rs. a. p.				Lakshatipett Division.—(contd).
...	<i>Portion of Uttoor Block:—</i> In the Uttoor Block of the Nirmal Division, this portion is included and is being internally demarcated there, as per Conservator's No. 2390, dated 5-4-18 F.
...	<i>Tandur Block:—</i> Assistant promises to do this work in 1319 F. Rs. 150 sanctioned in 1317 Fasli.
...	
126 1 4	<i>Chinnur Block No. 1:—</i> Rs. 500 sanctioned in 1316 Fasli. Till last year, Rs. 292-7-8 spent. Rs. 126-1-4 spent this year. The Assistant promises to cut the remaining line in 1319 Fasli.
...	<i>Block No. 2:—</i> Although the Taluqdar of Adilabad has been asked to send his opinion through Conservator's No. 8866, dated 7th Sharewar 1317 Fasli, he has not yet replied to it. The work has therefore not progressed.
...	<i>Block No. 3:—</i> The same remarks apply to this also.
126 1 4	
35 0 0	<i>Lakshatipett, Italli Block:—</i> Rs. 450 sanctioned in 1317 F. Rs. 220 spent last year, but the Assistant shows Rs. 221-10-0. He has to explain the difference. Rs. 35 spent this year. The remaining line to be cut in 1319 Fasli.
...	<i>Kawal Block:—</i> Owing to the non-settlement of boundary disputes with the Paigah villages of the Yelgadap Taluqa, no preliminary demarcation could be done. The Assistant should request the Taluqdar to expedite this work. It has to be explained when the existing line of 46-43 miles was cut.
81 0 0	<i>Indaram Block:—</i> Rs. 258 sanctioned in 1317 Fasli. Rs. 41 spent last year and Rs. 81 in 1318 Fasli. The Assistant promises to finish the remaining work in 1319 Fasli.
116 0 0	
412 4 6	
3 7 3	
...	...	292	Nirmal Division.
...	<i>Nirmal Reserve:—</i> Existing lines, shown in cols. 5 and 13 are reported to have been repaired by the local ryots. 29 villages internally demarcated in 1318 Fasli, but neither the lines about 50 miles in length, have been cut nor surveyed. Hence column 14 is left blank. Between Maljhara and Savargaon, 10 miles of external boundary have been demarcated by stone cairns, without cost, and no line cutting is required.
...	<i>Utnoor Block, Ailabad Forest:—</i> Internal demarcation in 31 villages was completed this year, excluding 4 villages. 69-41 miles of internal lines have however not been cut. 9,232 acres of cultivated and 17,604 acres of culturable forest lands have been excluded for future cultivation. Thus 41-94 square miles have been excluded. The Assistant should send in his report and map and expedite line cutting. A portion of the internal boundary lines will serve the purpose of external boundary. Unless lines are cut, such work should not be shown in column 14.
...	...	292	Five miles of the Agrahar village of Kanchanpalli and one mile of Jirona Jagir of the Nirmal Taluqa, were demarcated by the Jagirdars.

[illegible]

for the year 1318 Faslī.

Expenditure on external demarcation.		Internal demarcation.			Remarks.
On new Work.	On repairs.	Linear miles.		Amount paid during the year.	
		Till last year.	During the year.		
11	12	13	14	15	16
Rs. a. p.	Rs. a. p.				
...	Nizamabad Division.
...	110 miles of the Meenajipett, Manchippa and Hajipur forests, existing boundaries have been cleared by ryots, without any cost to Government.
...	<i>Medak Protected Forest</i> :—Mr. Farrell has preliminarily demarcated 65½ miles of external boundary lines and blazed trees, in twenty villages. The ranger has cut 33 miles of external lines, but as the payments were not made before the close of 1318 Faslī, the cost has not been shown in Column 11. Mr. Farrell in his report states that the Patel of Burgpalli undertook to cut the boundary line free of cost on condition that he was given the timber at Depot rates. No mileage has been shown. The present Assistant should supply full information.
...	
..	12 6 6	15.24	Mahbubnagar Division.
...	<i>Amrabad Reserve</i> :—No fresh demarcation was done in this tract. The old lines were cleared at a cost of Rs. 12-6-6. The internal demarcation of the Lingal Settlement area, of 15.24 miles, is not now to hold good, as it has been decided that the settlement has to be removed to a healthier place. The Conservator has submitted his four notes and requested the Revenue Secretary to settle this matter in the Subedars' Committee, to be held from the 1st of September 1910. He has suggested Mannanoor for the criminal tribes settlement. The area lately demarcated for future cultivation, in the villages of Mannanoor, Amrabad &c., to be reserved for these tribes. In the Kalvakurti Taluqa, 1.27 mile of boundary line, between Tadparti Jagir and Mudhan Khalsa villages, has been surveyed and demarcated by Mr. Krishnaji Ganesh, but from his report it is not clear whether the line was cut or not.
...	<i>Koilkonda Protected</i> :—The preliminary demarcation of this tract was completed long ago, and instead of sending in report and map as directed, for consulting the First Taluqdar, the present Assistant is discussing all sorts of possible delays and alterations, by the Revenue officers. He went over 34.62 miles of these lines and has obtained village statements to the effect that the lands left out for future cultivation are sufficient. Some alterations have also been made in the former lines. The work should be expedited.
...	12 6 6	15.24	<i>Vazeerabad tract</i> :—Although the Sub-Assistant was engaged in the Hyderabad Flood Relief measures, the ranger ought to have demarcated the remaining boundaries. The work must be expedited.
...	
...	Aurangabad Division.
...	With the exception of Nander, no existing lines cleared in this Division. This is not at all good. The Ranger of Nander has reported that he has cut a line, 55.35 miles in length, in two blocks, between 14 Khalsa and 4 Makta villages, without any cost to Government. This must however be verified by the Sub-Assistant.
...	
...	Gulbarga Division.
...	21 1 0	Although 74.55 miles of undemarcated lines exist in this Division, no lines were cut this year and the Assistant has not even tried to explain the reason for this in his report or statement. Preliminary demarcation of the Peddamal tract was done by Mr. Edwards, dividing the forest into three blocks and received the approval of the Conservator, through No. 6559, dated 20th Tir 1318 Faslī. As a large portion of it is bounded by Jagirs, the Forest Settlement Officer has to decide some disputes. 39 pillars were erected in the Chincholi Reserve, at a cost of Rs 21-1-0. Conservator's sanction not quoted. 117.34 miles of existing lines of the four forests, cleared by ryots, without any cost to Government.
...	The settlement village maps of the Chincholi, Yadgir and Peddamal forests are very incorrect and the matter was reported to Government for final orders. Unless the Forest Settlement Officer is given power to correct them, our demarcation and forest survey work could not be completed.

Forest Settlement Officer in 1318 Fasli.

Forwarding rubkar of Conservator.	Rubkar No &c of sanctioning authority.	Remarks.
9	10	11
No 6713 dated 12th Tir 1318 F. to the Forest Set- tlement Officer.	...	Nobody represented the Government and hence the case could not be decided finally.
...	...	The Forest Settlement Officer fixed different dates for the hearing of these cases but neither the Village Officials nor the Government representative from the Revenue Department turned up and hence the cases are still pending.
...	...	
...	...	
...	...	As this case was decided by the Settlement Department long ago, it has been struck off the Register.
...	No 21 dated 5th Muh. 1318 F. from the Supdt. Sett. Office, Hyd.	In 1317 F statement the disputed area was shown at 564 acres, but in 1318 F. it has been shown at 823 acres. No remarks made by the officer for this change.
...	Pending sanc- tion.	This case has been sent for sanction to the Superintendent, Settlement Department, Hyderabad. In 1317 the area was shown at 20 acres, now it has been shown 19 acres with no remarks.
...	...	
...	No. 2 D. 7th Far. 1318 F. from the Supdt Sett. Dept Hyderabad.	
...	No 6 D. 7th Amd. 1318 F. from the Supdt. Sett Dept. Hyderabad.	
...	...	Papers were submitted during the monsoon and hence nothing could be done on the spot.
...	No sanction re- quired as the Forest Settlement Officer is empow- ered to decide such cases.	
...	No. 4 D. 24th Tir 1318 F. from the Supdt Sett. Dept. Hyderabad.	
...	No. 3 dated 20th Tir 1318 F. do.	
...	No. 5 dated 24th Tir 1318 F. do.	
...	No. 7 dated 7th Amd. 1318 F. do.	
...	No sanction re- quired as the Forest Settlement Officer is empow- ered to decide such cases.	
...	Do.	
...	...	Submitted for sanction to the Superintendent, Settlement Department, Hyderabad.
...	...	Owing to want of instructions from the Conservator's Office this case is pending.
...	No sanction re- quired.	
...	...	
...	...

to depots, sold locally or otherwise disposed of during the year 1378 Fasli.

Sold or written off during the year.		Balance at the close of the year.		REMARKS.
Quantity or Number.	Value.	Quantity or Number.	Value.	
11	12	13	14	15
Mds. 401-25	Rs. a. p. 200 10 0	Mds. 2,298-75	Rs. a. p. 1,149 6 0	Warangal Depot. Ten waggon loads of firewood collected at Mahbubabad for Hyderabad flood relief Measures were brought to the Warangal depot. The expenditure of Rs. 692-10-0 was met from Conservancy funds and the fuel is being sold at annas eight per Bengali Maund. No other timber was brought to the depot during the year.
...	...	378-9-4	483 14 1	
...	...	8,096-0-0	972 1 9	Yellendu Depot.
...	...	3,630	1,846 13 0	The Assistant is still collecting materials for the preparation of a report for writing off the old paper balance of Rs. 3,302-12-10.
...	3,302 12 10	
...	200 10 0	...	4,452 2 10	
...	7,535 2 7	Warangal Range.
...	26 4 0	...	7,439 0 11	The Assistant Conservator has not as yet sent in his report for writing off the old nominal balance of Rs. 7,535-2-7 as he could not collect datas owing to the non-existence of record in the subordinate offices
...	101 9 8	...	1,972 13 2	
...	Written off 46,972 7 11	...	244 1 9	Pakhal Range. Materials for writing off the old paper balance of Rs. 5,033-5-1 are being collected. Rs. 2,405-11-10 worth of timber is said to exist and attempts are being made for the disposal of the same
...	Yellendu Range.
...	47,100 5 7	...	17,191 2 5	The Assistant Conservator promises to check the accounts with the cash books and submit his report for writing off the old paper balance of Rs. 1,772-2-10. Timber valued at Rs. 200-10-4 is said to exist in the Forests.
...	47,300 15 7	...	21,643 5 3	
...	6 4 0	Chandragunda Range. As per Government sanction conveyed through the Revenue Secretary's Rubkar No. 1579 dated 11th Ardbhesht 1319 Fasli, the old paper balance of Rs. 46,972-7-11 has been written off. Timber valued at Rs. 244-1-9 is said to be sold at the Yellendu depot, but as no correct information of the credit is given to the Ranger concerned, the timber is being shown as balance.
...	293 4 11	
...	1,061 9 7	Kareemnagar Division. Depot Karimnagar:—The depot clerk being under suspension Rs. 6-4-0 were not recovered till the end of the year. Sirsilla Forest:—The Assistant remarks that attempts are being made for the disposal of the timber worth Rs. 293-4-11. He has not included in balance the timber of 125 cubic feet, 321 running feet and 1,590 poles, shown in the last year's report.
...	1,354 14 6	Mahadeopur Forest:—The Assistant Conservator remarks that the balance of timber valued at Rs. 1,061-9-7 is only nominal. Report for writing off the same should be submitted soon as promised.

...	173 14 4	
...	810 6 8	..	140 15 5	
...	17 12 10	...	57 9 8	Lakshattipett Division. The Assistant Conservator remarks that the balance of timber is rotten and hence it could not be sold.
...	2 13 4	Nirmal Division. The balance of timber shown against this division is said to be cut for fire lines in the impassable tracts. It is now shown as rotten. The Assistant Conservator should submit his report for writing off the same as promised.
...	371 12 6	
...	62 15 8	Nizamabad Division. Notwithstanding remarks in the printed report of 1317 Fasli, the Divisional statement is blank. Large balances of timber shown last year against the Manchippa and Medak Forests have also been omitted altogether. They have now been shown in this office. The Assistant Conservator should at once submit his explanation.
